Mr Joe Beck

Mr Joe Beck is Vice President, Global Distribution, Logistics and Network responsible for global distribution, transportation, business intelligence, control tower, and network strategy. Joe's team collaborates across the enterprise with Medtronic Operating Networks, Regions, and Functions to lead people, process, analytics and technology for global supply chain. Joe is an executive sponsor of Men Advocating for Change (MAC) within the Medtronic Women's Network, and leads Medtronic Deliver Transformation.

Joe has more than 30 years of professional supply chain experience across multiple industries. Prior to Medtronic, Joe worked at UPS for 15+ years supporting both the High Tech and Healthcare sectors. Most recently, Joe was the Vice President, Global Healthcare and Life Sciences Accounts responsible for global supply chain management, strategy, and business development activities. Joe held previous positions in general management, operations, material planning, supply chain, customer solutions, and sales at various companies including Dell, Solectron (Flextronics), EFTC (Jabil), and ESUSA (Johnson Controls).

Joe has a double major in Economics and Communications, and a MBA from the University of Louisville including a graduate program in Logistics and Distribution (LoDi). Joe also served on the Reverse Logistics Association board, and completed APICS CPIM and CIRM.
