SCHEDULE XXIV - FINLAND

Adjustment of Specific Duties - Action under the Decision of 3 March 1955

Addendum

Contracting parties were advised in document L/362 that, pursuant to the Decision of 3 March 1955, the Government of Finland has been free since 2 April to give effect to the adjustments of specific duties notified in document L/286, except for certain items which were to be the subject of further negotiations with Benelux and the United Kingdom.

The Finnish Government has advised, by letters dated 26 July, that, as a result of consultations with the Governments of the Benelux countries, reduced specific duties have been agreed upon for certain items included in the list notified in L/286, as follows:

Tariff Item Numbers	Rates of Duty
06-003	25 mk per kg
ex 30-017	4 " " "
33-007	16 " " "
63-639	4 " " "
73-024	55 " " "

As a result of consultations with the Government of the United Kingdom, the Finnish Government proposes to submit a request for authority under paragraph 2(a) of the Declaration on the Continued Application of Schedules to renegotiate certain concessions with a view to converting specific rates of duty into ad valorem rates. It is the intention of the Government of Finland to submit details of its request for consideration by the Intersessional Committee at its meeting in September.

The adjustments of specific duties, as notified under the Decision of 3 March 1955, will shortly be made effective with the exception of the following which fall within the negotiation with the United Kingdom:

Tariff Item Numbers

36-010	48-240
48-138	48-340
48-238	48-440
48-338	48-043
48-438	50-022
48-140
