UNITED STATES AGRICULTURAL ADJUSTMENT ACT

Tariff Commission Investigation on Cheese

The following communication, dated 7 June 1961, has been received from the United States resident delegation in Geneva:

"Under instruction from my Government and in accordance with the procedures of the Decision of the CONTRACTING PARTIES of 5 March 1955, I wish to submit the following notification:

"It will be recalled that under a finding by the President, pursuant to Section 22 of the Agricultural Adjustment Act, blue mold and cheddar cheese are subject to quantitative restriction upon importation into the United States. These controls are among those dating back to the time of the Decision.

"On 31 May, the United States Tariff Commission made public the announcement that it had instituted an investigation under sub-paragraph (d) of Section 22 to determine whether additional quantities of blue mold and cheddar cheese may be imported into the United States. A public hearing in the matter has been set for 18 July 1961."
