

Third Session of the Contracting Parties

Corrigendum to the Summary Record of the
Second Meeting

Page 2, Paragraph 5:

Delete the second, third and fourth sentences and substitute the following therefor:

"It had been pointed out in Geneva last year that it was especially inconvenient for the Australian Government to partake in tariff negotiations now. The difficulties which had been explained related to the signing of an agreement, the publication of any concessions made by Australia at Annecy, and their implementation. It would not be possible for the Australian Government to accept these changes in 1949 or to submit them to the legislature until the new Parliament assembled. As had been suggested by the Working Party in Geneva last year, he now raised the matter so that a solution might be sought which would enable the Australian Government to defer publication and the implementation of any concessions which might be made by Australia."
