CONTRACTING PARTIES

SCHEDULE XXVII - Italy

Modification of Item 466 a (1)

The Governments of the Republic of Chile and of the Italian Republic have agreed to the modification of the text of :

"Item 466 a (1) - Natural Sodium Nitrate containing not more than 16.20 percent of nitrogen."

to read :

" not more than 16.23 per cent of nitrogen."

As the Agreement between the two Governments which initially negotiated the concession involves a change in Schedule XXVII, as authenticated in the Annex Protocol of Terms of Accession, the following procedure is suggested to give effect to the changes :

Provided no objections to the modification are lodged with the Secretariat within thirty days of the date of this notification, the text so modified will determine the obligation of the Italian Government in respect of item 466 a (1) of its customs tariff as of the date on which the Italian Government becomes a contracting party. The formal change in the text of Schedule XXVII will be effected by the adoption of a protocol to be drawn up by the Contracting Parties at their Fourth Session.
