SCHEDULE XXVII - Italy

Additional Modification of Item 466-a

Further to the modification contained in document GATT/CP/46, the text of the second paragraph of item 466-a.

       Natural Sodium Nitrate is admitted free of duty within the limits of an annual quota....."

should be modified to read:

"Natural Sodium nitrate containing not more than 16.23 per cent of nitrogen is admitted free of duty within the limits of an annual quota....."

As the Agreement between the two Governments which initially negotiated the concession involves a change in Schedule XXVII, as authenticated in the Annecy Protocol of Terms of Accession, and also an additional modification to that contained in document GATT/CP/46 to which no objections have been received, the following procedure is suggested to give effect to the changes:

Provided no objections to the modification are lodged with the Secretariat within thirty days of the date of this notification, the text so modified will determine the obligation of the Italian Government in respect of the second paragraph of item 466 a of its customs tariff as of the date on which the Italian Government becomes a contracting party.

The full description of item 466 a would then read as follows:

" 1) Natural sodium nitrate containing not more than 16.23 per cent of nitrogen .....

Natural sodium nitrate containing not more than 16.23 per cent of nitrogen is admitted free of duty within the limits of an annual quota of 500,000 quintals from all countries, under regulations and conditions to be established by the Minister of Finance. "
