GENERAL ECONOMIC AND FINANCIAL SITUATION  
OF NICARAGUA

Addendum

Letter of the President of the Delegation of Nicaragua of  
27 July 1949.

"After informing you that there were no indiscriminatory restrictive measures in effect in Nicaragua for the establishment, development or reconstruction of a particular industry or branch of agriculture, as referred to in paragraph 11 of Article XVIII of the General Agreement, I submitted to you, together with my communication of 29 June 1949, a list of certain legal provisions affecting imports to a certain extent, such as the legislation on exchange control which has been drawn up exclusively with a view to protecting the country's balance of payments.

In order to inform the Contracting Parties and Acceding Governments of the meaning and bearing of this Law of Control, I have pleasure in enclosing a copy of "La Gaceta", the official bulletin of Nicaragua, No.79 of April 1949 in which the regulations now in effect on exchange control are to be found.

I shall be grateful if you will inform the Contracting Parties and Acceding Governments that this law is available for consultation."

Note : The Spanish text of the Decree referred to above is available for consultation at the secretariat.
