CONTRACTING PARTIES
Fourth Session

WORKING PARTY A ON RECTIFICATIONS AND
MODIFICATIONS OF SCHEDULES

Agenda for meeting of 22 March

1. Methods to be adopted for giving effect to Rectifications and Modifications.
 - (a) Modifications.
 - (b) Rectifications.
2. Ceylon renegotiations. (Document GATT/CP.4/12). This has been referred to the Working Party by the Contracting Parties (GATT/CP.4/SR.14) to report on whether any action is necessary to incorporate the results of these renegotiations in a protocol.
3. Norwegian renumbering of tariff items - whether provision should be made in the protocol to cover this.

Note: It is proposed that, rather than follow the columnar form of the first and third protocols of rectifications, the English and French texts be produced separately (as in the second protocol of rectifications) because, with a few exceptions, there are different rectifications for the two texts.
