In the penultimate line of paragraph 21, change the word "allowed" to "determined".

Insert the following after paragraph 21:-

"22. Several instances and several hypothetical cases of the application of restrictions were put forward, but the discussion led the Working Party to conclude that, although the general review of the problem had served a useful purpose, most rapid progress would be made in the future if interpretations of the provisions of the Agreement were based upon specific situations adequately documented rather than upon hypothetical cases or upon cases put forward with incomplete statements of the facts."
