NEGOTIATIONS UNDER ARTICLE XXVIII:1

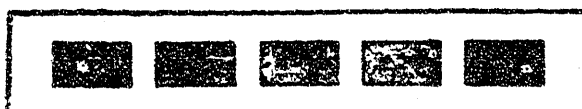

Extension of Closing Date for Completion of Negotiations¹

The following communication has been received from the Government of Canada:

"It is the intention of the Canadian Government to request, at the 6 July meeting of the Council of Representatives, an extension of the closing date for negotiations under Article XXVIII:1 until the twenty-second session of the CONTRACTING PARTIES.

"This additional time is required so that Canada may carry out renegotiations of tariff items covered by the Tariff Board Report on Mining Machinery. The tariff items concerned have already been notified under Article XXVIII:1 procedures. The report of the Tariff Board on Mining Machinery has been tabled but a considerable time will be required for consideration of various changes proposed before Canada can begin renegotiations of these items."

¹At the twenty-first session the CONTRACTING PARTIES agreed that the negotiations under Article XXVIII:1 might be pursued up to 30 June 1964. (SR.21/2, page 18).
