

# GENERAL AGREEMENT ON TARIFFS AND TRADE

RESTRICTED

COM.IND/W/28  
8 June 1970

## Committee on Trade in Industrial Products

### GROUP 4

#### Specific Limitations

1. Pending the publication of the annexes to the report of the Joint Working Group on Import Restrictions (L/3391) the part of Annex I (Revised Consolidated Table) covering BTN Chapters 25-99 is herewith made available in draft form for the information of members of Group 4. The draft table takes account of changes made in the Joint Working Group during its examination of the table contained in document L/3377 and its addenda.

2. The following symbols, as adopted by the Joint Working Group, are used:

BQ Bilateral quota

GQ Global quota

P Prohibition

ST State trading

(an additional symbol indicates what degree of restriction was considered to be involved in its operation, where attention was given to this matter)

AL Automatic licensing

LL Liberal licensing

DL Discretionary licensing

SUSP (followed by country abbreviation) - an import restriction has been suspended pending application of an export restraint by the country named in parentheses

XR (followed by country abbreviation) - the country in brackets operates an export restraint vis-à-vis the country shown maintaining this restriction

Certain other restrictions (notably mixing regulations and screen quotas) are mentioned in individual boxes.

3. The following country or area symbols are used:

(BEL) indicates that the restriction is applied only by Belgium-Luxembourg.

Elsewhere a country abbreviation in parentheses indicates that the restriction indicated applies only to the country or area named.

4. A dash preceding an abbreviation indicates that the restriction applies to all countries or areas except that named.

5. Numbers in the lower left-hand corner of boxes refer to NTB inventory cards.

6. Symbols in the lower right-hand corner indicate:

- A - a date has been mentioned as the envisaged time of liberalization.
- B - the debate indicated, in the secretariat view, that consideration of joint action looking toward removal or relaxation of restrictions might be fruitful.
- C - products in which developing countries in the Joint Working Group expressed specific interest in regard to the relaxation or elimination of restrictions maintained by consulting countries.
- D or E - denotes restriction is on one of twenty-one product groups selected by the Group on Residual Restrictions at its meeting in April 1969 for priority attention.

Those marked "D" relate to six of those twenty-one product groups discussed in the Group on Residual Restrictions in November 1969. Information supplied by governments and other relevant background data and statistics compiled by the secretariat on restrictions related to these items are included in COM.TD/70, COM.TD/W/105 and COM.TD/W/107 and their addenda and corrigenda.

The symbol "E" indicates the remaining fifteen product groups selected by the Group on Residual Restrictions but not yet examined. Data on these fifteen product groups, compiled by the secretariat, have been circulated in COM.TD/W/118.

7. An asterisk in the BTN column indicates that the item is of export interest to developing countries (cf. COM.TD/67 and corrigenda).

Note: Advance issue of part of Annex I of L/3391.
