

GENERAL AGREEMENT ON TARIFFS AND TRADE

RESTRICTED

COM.IND/W/28/Rev.1
26 August 1970

Special Distribution

Committee on Trade in Industrial Products
Joint Working Group on Import Restrictions

TABLE OF IMPORT RESTRICTIONS

Attached herewith for the information of members of Group 4 of the Committee and members of the Joint Working Group is a revision of the consolidated table, prepared on the responsibility of the secretariat, and circulated on 8 June 1970 as COM.IND/W/28. The table, which relates to BTN Chapters 25-99¹, has been revised to incorporate necessary corrections. It should be read in conjunction with the notes on individual items circulated today as COM.IND/W/28/Add.1.

It will be recalled that, according to agreement reached in the Council on 15 July 1970, the documentation should be finalized at a short meeting of the Joint Working Group in the early autumn.

The following symbols, as adopted by the Joint Working Group, are used:

BQ	Bilateral quota
GQ	Global quota
P	Prohibition
ST	State trading
	(an additional symbol indicates what degree of restriction was considered to be involved in its operation, where attention was given to this matter)
AL	Automatic licensing
LL	Liberal licensing
DL	Discretionary licensing
SUSP	(followed by country abbreviation) - an import restriction has been suspended pending application of an export restraint by the country named in parentheses
XR	(followed by country abbreviation) - the country in brackets operates an export restraint vis-à-vis the country shown maintaining this restriction

Certain other restrictions (notably mixing regulations and screen quotas) are mentioned in individual boxes.

¹With regard to Chapters 1-24, see COM.AG/W/57.

The following country or area symbols are used:

(BEL) indicates that the restriction is applied only by Belgium-Luxembourg.

Elsewhere a country abbreviation in parentheses indicates that the restriction indicated applied only to the country or area named.

A dash preceding an abbreviation indicates that the restriction applies to all countries or areas except that named.

Numbers in the lower left-hand corner of boxes refer to NTB inventory cards.

Symbols in the lower right-hand corner indicate:

- A - a date has been mentioned as the envisaged time of liberalization.
- B - the debate indicated, in the secretariat view, that consideration of joint action looking toward removal or relaxation of restrictions might be fruitful.¹
- C - products in which developing countries in the Joint Working Group expressed specific interest in regard to the relaxation or elimination of restrictions maintained by consulting countries.
- D or E - denotes restriction is on one of twenty-one product groups selected by the Group on Residual Restrictions at its meeting in April 1969 for priority attention.

Those marked "D" relate to six of these twenty-one product groups discussed in the Group on Residual Restrictions in November 1969. Information supplied by governments and other relevant background data and statistics compiled by the secretariat on restrictions related to these items are included in COM.TD/70, COM.TD/W/105 and COM.TD/W/107 and their addenda and corrigenda.

The symbol "E" indicates the remaining fifteen product groups selected by the Group on Residual Restrictions but not yet examined. Data on these fifteen product groups, compiled by the secretariat, have been circulated in COM.TD/W/118.

An asterisk in the BTN column indicates that the item is of export interest to developing countries (cf. COM.TD/67 and corrigenda).

It is to be expected that despite careful checking, a detailed compilation such as this may still contain errors. Any such errors will be corrected in due course.

¹Where the symbol B is used no indication of date of relaxation has been made.

Note: Advance issue of part of Annex I of L/3391.

BTN	Commodity	Australia	Austria	Canada	Denmark	Benelux	France	Germany, F.R.	Italy	Ireland	Japan	Norway	Portugal	Sweden	Switzerland	United Kingdom	United States
