

GENERAL AGREEMENT ON TARIFFS AND TRADE

RESTRICTED

COM.TD/62

31 October 1968

Limited Distribution

Committee on Trade and Development

IMPORT RESTRICTIONS APPLIED BY DEVELOPED COUNTRIES ON PRODUCTS OF EXPORT INTEREST TO DEVELOPING COUNTRIES

Note by the Secretariat

1. The Group on Residual Restrictions met in October 1968 to examine the residual import restrictions applied by developed countries on products of export interest to developing countries. On the instructions of the Committee on Trade and Development the secretariat had prepared an up-to-date list of such restrictions to serve as a basis of discussion in the Group (COM.TD/W/76). The present document is a revised version of that list incorporating changes and corrections in the light of discussions at the Group meeting.
2. This list is intended to include all restrictions on products notified by developing countries as being of export interest to them as per COM.TD/23. For practical reasons, however, cotton textile products have been left out (information on these products is available in documents in the COT/- series). Restrictions applied for balance-of-payments reasons are also excluded, as are restrictions applied by France, which has not participated in the work of the Committee on Trade and Development (information on French restrictions is available in documents in the L/- series).
3. Part I of the paper comprises thirteen country tables showing the restrictions applied by fourteen developed contracting parties. The table in Part II shows the restrictions applied on each product.
4. The significance of the symbols used in the document is as follows:

R	=	Restriction (method unspecified)
L	=	Licensing (liberal or discretionary, etc. unspecified)
LL	=	Liberal licensing
DL	=	Discretionary licensing
Q	=	Quota (global or bilateral; unspecified)
GQ	=	Global quota
BQ	=	Bilateral quota
SR	=	Seasonal restrictions
P	=	Prohibited

(-EEC) = Applicable to imports from other than EEC member countries

(-STA) = Applicable to imports from other than sterling area countries

(DA) = Applicable to imports from the dollar area

Where a restriction is applied on imports from specific sources in any other manner, an indication is given in a footnote in the country table.

5. Where a restriction is considered by the government applying it to be covered by the provisional application clause in the Protocol providing for the terms on which the government applies the GATT, or by a special decision of the CONTRACTING PARTIES, the relevant Protocol or decision is indicated in the fourth column of the tables in Part I.
