

GENERAL AGREEMENT ON TARIFFS AND TRADE

Committee on Trade and Development

Group on Residual Restrictions

RESTRICTED

COM.TD/W/76

13 September 1968

Limited Distribution

IMPORT RESTRICTIONS APPLIED BY DEVELOPED COUNTRIES ON PRODUCTS OF EXPORT INTEREST TO DEVELOPING COUNTRIES

Note by the Secretariat

1. At its eleventh session, held in June 1968, the Committee on Trade and Development agreed that the Group on Residual Restrictions should resume its work on the basis of its original terms of reference and that an up-to-date list of import restrictions on products of export interest to developing countries should be prepared by the secretariat to serve as a basis for discussion.
2. The present document has been prepared by the secretariat on the basis of information available to it as of 31 August 1968, and it supersedes the previous listing in COM.TD/W/60. The intention is to list all restrictions on products notified by developing countries as being of export interest to them as per COM.TD/23. For practical reasons, however, cotton textile products have been left out (information on cotton goods has been made available in documents in the COT/- series). Restrictions applied for balance-of-payments reasons are also excluded, as are restrictions applied by France, which has not participated in the work of the Committee on Trade and Development (information on French restrictions is available in documents in the L/ series).
3. Part I of the paper comprises thirteen country tables showing the restrictions applied by fourteen developed contracting parties. The table in Part II shows the restrictions applied on each product. The latter table is intended to facilitate discussion on a product-by-product basis, particularly where restrictions on a certain product or group of products are applied by more than one developed country (e.g. jute and coir products, textiles other than cotton textiles, chemicals and plastic products, footwear and other leather manufactures, metals and articles of metal, and other manufactures) so that any common problems or possibilities for action might be better explored.
4. The significance of the symbols used in the document is as follows:

R	=	Restriction (method unspecified)
L	=	Licensing (liberal or discretionary, etc. unspecified)
LL	=	Liberal licensing
DL	=	Discretionary licensing
Q	=	Quota (global or bilateral; unspecified)

GQ	=	Global quota
BQ	=	Bilateral quota
SR	=	Seasonal restrictions
P	=	Prohibited
(-EEC)	=	Applicable to imports from other than EEC member countries
(-STA)	=	Applicable to imports from other than sterling area countries
(ETA)	=	Applicable to countries in the Eastern trading area
(DA)	=	Applicable to imports from the dollar area

Where a restriction is applied on imports from specific sources in any other manner, an indication is given in a footnote in the country table.

5. Where a restriction is considered by the government applying it to be covered by the provisional application clause in the Protocol providing for the terms on which the government applies the GATT, or by a special decision of the CONTRACTING PARTIES, the relevant protocol or decision is indicated in the fourth column of the tables in Part I.
