STATUS OF SWISS RESTRICTIONS

The following communication, dated 13 March 1969, has been sent by the Government of Switzerland in response to a request for supplementary information for use by the Group on Residual Restrictions at its next meeting.

The products subject to quantitative import restrictions in Switzerland are listed in document L/2903. In pursuance of paragraph 4 of the Protocol for the Accession of Switzerland to the General Agreement, Switzerland furnishes each year a report on the measures maintained consistently with its reservation with regard to the application of the provisions of Article XI. The most recent report was circulated in document L/3076, dated 15 October 1968.

The restrictions concerned cannot be considered to be "residual" since they are covered by paragraph 4 of the Protocol for the Accession of Switzerland to the General Agreement, dated 1 April 1966.
