

# GENERAL AGREEMENT ON TARIFFS AND TRADE

RESTRICTED

COM.TD/B/W/1  
15 October 1965

Limited Distribution

---

Committee on Trade and Development  
Group on Residual Restrictions

INFORMATION SUPPLIED BY GOVERNMENTS IN RESPECT  
OF RESIDUAL RESTRICTIONS AFFECTING ITEMS NOTIFIED  
AS BEING OF EXPORT INTEREST TO LESS-DEVELOPED  
COUNTRIES

At the last meeting of the Group on Residual Restrictions, the secretariat was requested to prepare - with the assistance of governments concerned - a working paper, giving details about quotas established in respect of a list of products notified as being of export interest to less-developed countries, and subject to residual restrictions, as well as recent data on production, and imports, together with indications by governments regarding plans for liberalization of imports of these items, and about any target dates for such liberalization.

To comply with this request, the secretariat sent a questionnaire to contracting parties concerned, asking for the relevant statistical data and the other information requested from governments.

The information received to date in response to this questionnaire is reproduced below. Information from other governments will be circulated as soon as it is received.

A copy of the questionnaire, as sent to governments, together with the accompanying letter, is also annexed for information.

FORM SUPPLIED BY GOVERNMENTS IN REPLY TO THE QUESTIONNAIRE

BELGIUM AND LUXEMBURG

R = imports subject to discretionary licensing.

ANNEX

COPY OF LETTER SENT ON 1 SEPTEMBER TO DELEGATIONS OF  
CONTRACTING PARTIES MAINTAINING RESIDUAL IMPORT RESTRICTIONS  
ON PRODUCTS OF EXPORT INTEREST TO LESS-DEVELOPED COUNTRIES

.....

"... I am writing to you in connexion with the recommendation of the Group on Residual Restrictions, endorsed by the Committee on Trade and Development, that discussions be held on a country-by-country basis, with developed contracting parties maintaining restrictions inconsistent with the GATT on products of export interest to less-developed countries (see COM.TD/B/2 and COM.TD/10).

"To facilitate such discussion in the Group on Residual Restrictions, the secretariat was requested to draw up, with the assistance of governments concerned a background paper giving information in respect of the products which are subject to such restrictions. The data and information requested relate to the licensing arrangements applicable to imports from different sources, and to plans or programmes for the liberalization of these items, including any target dates adopted in this regard, and to statistics of production and imports.

"To comply with this request, the secretariat has, as an initial step, selected from the list of products notified by governments as being subject to residual restrictions - as set out in document L/2336 - those products which would seem to correspond to the products notified earlier to Committee III as being of export interest to less-developed countries. The items so selected have been inserted in the questionnaire, three copies of which accompany this letter (see attachment).

"We would be most grateful if you could arrange to have the questionnaire filled in by the competent authorities and to return the completed questionnaire by 28 September, to permit the paper to be finalized in time for the discussion in the Group on Residual Restrictions, scheduled to meet from 18-22 October (see GATT/AIR/485).

"Finally, I would like to point out that there may be some other products of interest to less-developed countries to which restrictions are still applied, but which are not mentioned in the annexed questionnaire. It would be appreciated if relevant information in regard to any such products would also be provided. Attention is drawn in this connexion to document series TN.64(LDC)..."

.....

COFFRE THE QUESTIONNAIRE RELATIF A TRES RESTRICTIONS

1. The questionnaire is being circulated to facilitate the drawing up of a working paper, requested for the next meeting of the Group on Residual Restrictions (see COM.TD/B/2 and COM.TD/10).

2. Information is asked for in respect of items notified earlier as being of export interest to less-developed countries (cf: COM.TD/7, or COM.III/136) and included in the notification by governments of residual restrictions (L/2336, and addenda). The items inserted in column 1, were selected by the secretariat on the basis of these documents, no distinction being made of whether, or

not, the restrictions are considered to be consistent with the General Agreement or the Protocols of Provisional Application.<sup>1</sup>

3. Governments are invited to verify - or, as appropriate, to amend - the list of items shown as being subject to residual restrictions and, in respect of items subject to such restrictions, to complete the questionnaire. It would be helpful if the data could be shown as set out in the suggested notation.

(1) PRODUCTS OF EXPORT INTEREST TO DEVELOPING COUNTRIES SUBJECT TO RESTRICTIONS	(2) TYPE OF IMPORT CONTROL MEASURES			(3) ANY INDICATION REMARKS REGARDING PROGRESS IN LIBERALIZATION AND PLANS FOR FUTURE ELIMINATION OF RESTRICTIONS	(4) TRADE AND PRODUCTION DATA
	F Countries or geographical area to which R restrictions apply	Quota ceiling (Q = thousand US\$ T = " metric tons; other units, please specify)	Period for which quota was granted		
BTN Product Descriptive					(a) IMPORTS (b) PRODUCTION (Q = thousand US\$; T = " metric tons; other units, please specify) (1964 unless otherwise specified)

Suggested notation and explanations to the Questionnaire:

Column 2

L = imports subject to licence, issued liberally on application

F = imports are free from licensing controls or restrictions when coming from certain sources, but restricted in respect of other sources (please specify)

Q = imports are subject to quota

R = imports subject to discretionary licensing

Where an item is free from restrictions when imported from certain sources, but restricted from other sources, or subject to different types of restrictions in respect of imports from different sources, please use as many symbols as are appropriate, and identify the countries to which each restriction applies, accounting for treatment of imports from all contracting parties. ("A listing of country name abbreviations is attached.") Where a restriction applies to imports from all contracting parties, please state "All".

Wherever possible, indicate the quota for the preceding year (or period), as well as for the current year (or period), and specify the periods for which the quotas were granted.

Column 3

Please indicate recent progress in import liberalization (normally since 1 January 1965) and, in particular, the existence of any specific programmes for import liberalization, as well as any target dates for the removal of the restrictions.

<sup>1</sup>Where restrictions are considered to be applied consistently with the GATT, governments are kindly requested to indicate this under "Remarks" (in column 3).

<sup>2</sup>Listed items which were formerly restricted, but have been freed from restrictions and licensing requirement when imported from contracting parties, should be deleted.

<sup>3</sup>In selecting the products for insertion in the questionnaire, account has also been taken of information asked for in connexion with the forthcoming review by the Cotton Textiles Committee of the operation of the Long Term Arrangement on International Trade in Cotton Textiles. Consequently, the items concerned have not been listed in the questionnaire.
