## QUANTITATIVE IMPORT RESTRICTIONS ON PRODUCTS NOTIFIED AS BEING OF EXPORT INTEREST TO LESS-DEVELOPED COUNTRIES

### Secretariat Note

As its meeting in June, the Group on Residual Restrictions also had before it, in document COM.TD/7, summary information on the import treatment of products which had earlier been notified as being of export interest to less-developed countries.

For information of the Group, and to facilitate its work, the secretariat has excerpted from document COM.TD/7, and brought up-to-date, the information relating to quantitative restrictions affecting products notified earlier to Committee III, or to the Committee on Trade and Development.

Also attached to this paper is the full list of items notified to Committee III, the Committee on Trade and Development and in the context of the Kennedy Round negotiations as being of export interest to less-developed countries.

### EXPLANATORY NOTES TO THE TABLES

1. Symbols used in the tables:

"_"	denotes no quantitative restrictions.
"L", "l"	denotes licensing requirement but imports are generally liberally licensed.
"R", "r"	denotes import restriction.
"M", "m"	denotes State monopoly.

Where small letters are used, the measure applies only to a part of the item against which it appears:

"#"	denotes instances of recent progress in import liberalization which have been brought to the notice of the secretariat.
-----	---

2. The present document does not cover import restrictions applied by Finland under Article XII of the General Agreement. For information in this regard, please see document BOP/51, dated 4 October 1965.

PRODUCTS NOTIFIED AS BEING OF EXPORT INTEREST TO  
LESS-DEVELOPED COUNTRIES

Listed below are the items notified - either to Committee III, the Committee on Trade and Development, or in the context of the Kennedy Round negotiations - as being of export interest to less-developed countries. To the extent possible, the items have been listed exactly as they were notified. However, for practical reasons, the product descriptions given for a number of products are those which cover all of the sub-items under a broader heading. As regards items which had earlier been notified in the context of Committee III, it might be pointed out that, at an early stage of the Committee's work, the nominations were made without identifying specific countries as sponsors of the product, or products concerned.

For the list of the country name abbreviation used, please see pages 55 and 56.

(1) BTN	(2) Product Description <sup>1</sup>	(3) Notifying Countries <sup>1</sup>

<sup>1</sup> Items notified in the context of Committee III or in the context of the Committee on Trade and Development, are identified by the symbol #. Similarly, in column 3 this symbol identifies the countries notifying these items in the context of the work of these two Committees. Underlining indicates that the items were notified by the country concerned both in the context of Committee III, or the Committee on Trade and Development, and in the context of the Kennedy Round negotiations.
