Fed. Rep. of Germany	Netherlands	Yugoslavia

The Commission of the European Economic Community will participate in the work of the Group.

Terms of reference

- To examine the problems involved in the expansion of trade between less-developed countries, with particular reference to the rôle of preferences between less-developed countries in promoting such trade, and taking full account of the work done earlier in the Working Party on Preferences and its findings;
- to examine in this context, any specific proposals submitted by contracting parties for the establishment of preferences between less-developed countries;
- to examine the pilot studies on trade flows between less-developed countries produced by the secretariat and to arrange for the extension of these studies to additional lists of products;
- to report, with appropriate findings and recommendations, to the Committee on Trade and Development at the next meeting of the Committee and to transmit its findings also to the Working Group on Preferences.
