

GENERAL AGREEMENT ON TARIFFS AND TRADE

RESTRICTED

COM.TD/LLDC/W/11
10 November 1983

Limited Distribution

Sub-Committee on Trade of
Least-Developed Countries
15-16 November 1983

EXPORT INTERESTS OF THE LEAST-DEVELOPED COUNTRIES (Tariffs, Non-Tariff Measures and Trade Flows)

Note by the Secretariat

1. As indicated in the Annex to the note on proceedings of the first meeting of the Sub-Committee (COM.TD/LLDC/1), and re-formulated in Annex I to the note on proceedings of the Fourth Meeting (COM.TD/LLDC/4), point (iii) of the Sub-Committee's programme of work is partly concerned with the identification of the export interests of least-developed countries and the commercial policy measures applied to the products of such countries in major markets. The Sub-Committee noted at its first meeting that consideration of this matter could be based on a secretariat background note providing statistical as well as tariff and trade information on selected items exported by individual least-developed countries and showing developed country importers and the commercial policy applied.
2. The Annex indicates further that least-developed countries could be invited to notify additional products of export interest. In addition, particular points relating to the application of the non-tariff measures agreements could be raised.
3. The Annex also states that the object would be to identify continuing barriers to the exports of least-developed countries for discussion, comment and suggestions in the Sub-Committee, as a contribution to work on the possibilities for further trade liberalization in the Sub-Committee itself or in other contexts.
4. This note which replaces COM.TD/LLDC/W/3 is made up of two parts. In the first part data on trade flows and applicable tariffs at the tariff line level are given on major dutiable items in trade between least-developed countries and a number of developed markets. The second part of the note assembles, on a preliminary basis, certain information at the four-digit CCCN level on non-tariff measures applied by the main importing countries. Because available information on product classifications and descriptions relating to certain non-tariff measures do not coincide with those for tariffs, it was not possible to amalgamate the two sections with a view to providing a composite picture of the situation.
5. Details concerning non-tariff measures have been extracted in the main from documents L/5415, and corrigenda and addenda, COM.TD/W/338/Rev.1,

NTM/W/6 and other GATT documents. For more detail on some of the measures it might be necessary to refer to these documents. It might be noted that in some cases non-tariff measures have been identified even though the country applying the measure has not recorded imports for the year covered from the least-developed country or countries which are exporters of the products concerned. Details of measures, in the field of textiles covered by the Arrangement Regarding International Trade in Textiles (MFA) may be found in the relevant documentation.

6. The inclusion of specific non-tariff measures in the tabulations is not intended to imply any judgement by the secretariat regarding the rights of contracting parties under the General Agreement or regarding the actual or potential trade effects of any measure. While every effort has been made to ensure the accuracy of the information, the tabulations should not be considered as containing a comprehensive and exhaustive list of all non-tariff measures applying to items of interest to least-developed countries. It is in this context that such material has been provided on a preliminary basis and is subject to amendment, deletion, addition, etc., in order to obtain a more precise picture of the application of non-tariff measures to products of export interest to least-developed countries.

7. For further details concerning the tabulations shown in Parts I and II which follow, delegations are invited to refer to the explanatory notes pertaining to them.

TARIFF AND TRADE FLOW DATA AT THE TARIFF LINE LEVEL

Explanatory notes

With respect to tariff items of developed country markets, the tabulations attached provide information at the tariff line level on different tariff treatment (m.f.n., GSP, LDC, etc.) and the corresponding trade flows, as well as imports from individual main suppliers. Import figures refer to the year 1980. In the first line, tariff item number, product description, and quantity unit are indicated.

TARIFFS

Column TYPE OF DUTY

MTN-B:	Base rate for the Tokyo Round (pre-Tokyo Round m.f.n. rate)
MTN-F:	Final rate (post-Tokyo round m.f.n. rate)
MFN 80:	M.f.n. rate applicable in 1980
TEMP:	Temporary m.f.n. rate in 1980
GSP-B:	GSP rate in 1981 or 1982
GSP-F:	GSP rate related to post-MTN final rate (Austria, Canada, Japan and Switzerland)
LDC-B:	Rate applying to least-developed countries in 1981 or 1982
FTA:	Rate applying to countries signatory to free-trade area agreement, e.g. EFTA
ZONE:	Rate applying to countries signatory to inter-zone free trade agreement (e.g. between EEC and EFTA)
PREF:	Rates applicable under other preferential arrangement, e.g. ACP and Mediterranean countries for EEC

Column RATE

Percentage ad valorem or ad valorem equivalent of specific, mixed or compound rate is indicated with one decimal point. Ad valorem equivalent is based on imports in the year recorded.

TRADE FLOW DATA

IMPORTS FROM (i) WORLD (= all sources) and (ii) GSP ORIGIN (= GSP beneficiary countries) are each sub-divided by TOT (= total imports irrespective of tariff treatment), MFN (= imports entitled to m.f.n. treatment), GSP (imports covered by GSP), LDC (imports entitled to LDC preference) and FTA, ZONE, PREF (= imports entitled to free trade area or other preferential agreements). It may be noted that "imports covered by GSP" do not take into account quantitative and origin rule limitations and non-utilization of GSP and that actual imports under GSP are smaller than imports recorded as GSP.

With respect to imports from world and imports according to different tariff treatment, names of five main suppliers appear in column MAIN SUPPLIERS and imports from four main suppliers are indicated at the bottom. See page after next for country name abbreviations.

SHARE for the percentage share of GSP beneficiaries in imports from world
V for value in \$1,000
Q for quantity
* for quantity data not showing last three digits, the figure exceeding available space e.g. 199676* = 199675000

Some technical details on tariffs are provided in the following columns:

TARIFF						RATE
N	E	B	B	L	P	
A	S	D	C	I	C	
T	T	G	V	M	V	VALUE UNIT AD. V

Data in these columns are explained below.

Column NAT = nature of duty rate (blank for ad valorem rate)

- S for specific rate (e.g. \$4.00/kg);
- C for compound rate (e.g. \$4.00/kg + 10%);
- M for mixed rate (e.g. \$4.00/kg. or 10% whichever is greater);
- V for variable levy or variable component;
- O for other natures.

Column EST = estimation code

- Z for an estimated rate;
- A when the rate is the simple arithmetic average of two or more rates (in cases where trade flow data are not available in the tariff detail and two or more rates are related to import data).

Column BDG = binding status (blank for ordinary binding)

- C for ceiling binding;
- P for a rate partially bound at a ceiling rate, and partially at the prevailing rate;
- U for an unbound rate.

Column BCV = binding coverage (blank for fully bound)

- X for partially bound.

Column LIM = limitation code for GSP (blank for no limitation)

- C for ceiling or competitive need provisions;
- Q for quota or similar limitations.

Column PCV = preference coverage (blank for coverage of whole tariff line)

- X for preference covering part of the tariff line.

Columns RATE/VALUE, UNIT, AD.V.

Specific, compound or mixed rate is indicated as illustrated below:

- 200/LB = specific rate of 2.00 units of currency per pound;
- 200/LB 0112 = compound rate of 2.00 units of currency per pound plus 11.2 per cent ad valorem;
- 200/LB 0112+ = mixed rate of 2.00 units of currency per pound or 11.2 per cent ad valorem, whichever is higher;
- 200/LB 0112- = as above, whichever is lower.

The following symbols have been used in regard to the table on quantitative and other import restrictions.

P	Imports prohibited
GQ	Global quota
BQ	Bilateral quota or quotas
QR	Quantitative restriction (level or quantity not published in advance)
XR	Voluntary export restraint accepted by exporting country or countries bilaterally
MP	Minimum price restrictions
TQ	Tariff quota
DL	Discretionary licensing
L	Licensing (method unspecified)
SR	Seasonal restrictions
ST	State trading
R	Unspecified restrictions

Les symboles utilisés dans le tableau II en ce qui concerne les restrictions quantitatives et autres à l'importation sont les suivants:

P	Importations prohibées
GQ	Contingent global
BQ	Contingent(s) bilatéral(aux)
QR	Restriction quantitative (niveau ou quantité non précisé à l'avance)
XR	Autolimitation des exportations acceptée bilatéralement par le ou les pays d'exportation
MP	Restrictions fondées sur les prix minima
TQ	Contingent tarifaire
DL	Régime de licence discrétionnaire
L	Régime de licence (méthode non spécifiée)
SR	Restrictions saisonnières
ST	Commerce d'Etat
R	Restrictions non spécifiées

Los siguientes simbolos se han adoptado en el cuadro en relacion con las restricciones cuantitativas o de otra índole a la importación:

P	Importaciones prohibidas
GQ	Contingente global
BQ	Contingente o contingentes bilaterales
QR	Restricción cuantitativa (nivel o cantidad no hecho público por anticipado)
XR	Limitación voluntaria de las exportaciones aceptada bilateralmente por el país o los países exportadores
MP	Restricciones basadas en precios mínimos
TQ	Contingente arancelario
DL	Régimen discrecional de licencias
L	Régimen de licencias (método no especificado)
SR	Restricciones estacionales
ST	Comercio de Estado
R	Restricciones no especificadas

Non-tariff measures maintained by some developed countries on
products of export interest to the least-developed countries
