ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notifications Under Article 2, Paragraph 1

Attached is a notification received by the TSB from MEXICO in accordance with paragraph 1 of Article 2 of the Textiles Arrangement. As required by the provisions of this paragraph the TSB is circulating this notification to participating countries in the Arrangement for their information. A summary tabulation of this notification prepared by the secretariat is also attached.

It is to be noted that the TSB, in the light of paragraph 11 of COM.TEX/2, is continuing to examine the notifications received in order to ensure the completeness and adequacy of the information, and is requesting the supply of additional information wherever necessary. Any additional information thus received will also be circulated.

It is, of course, open to any party to the Arrangement to request the TSB or the secretariat to seek any further information or clarification they may wish to have from the parties concerned, or to supply any additional information of relevance. Such information will also be circulated.

In accordance with the communication I addressed to you on 26 March¹ last concerning the conditions of the Mexican Government's accession to the Arrangement Regarding International Trade in Textiles, I have the honour to forward to you herewith, for the information of the Textiles Surveillance Body, a list of textile products subject to quantitative restrictions when imported into Mexico. These restrictions take the form of the requirement of obtaining from the competent Mexican authorities a prior licence to import the products mentioned.

I should add that as an exceptional measure, textile products imported into the free zones and areas of the federal territory can be, and in many cases in fact are, exempted from this formality for domestic reasons; nevertheless, at any time such imports may be made subject to the same treatment as imports intended for the rest of the national territory, i.e., the prior licence requirement may be extended to them.

Since no precise date has been set for elimination of the prior licence requirement for the products mentioned in the annex and since, furthermore, the dates on which they were made subject to this formality vary considerably, it seems inappropriate and unnecessary to indicate these various dates and it is not possible to calculate the volume of trade affected by these restrictions.

Accept Sir, the renewed assurances of my highest consideration.

¹ See COM.TEX/W/7 of 27 March 1974.
