UNITED STATES NOTE

21 May 1975

Excellency:

I refer to the Arrangement Regarding International Trade in Textiles done at Geneva on 20 December 1973, hereinafter referred to as the Arrangement. I also refer to recent discussions between Representatives of our two Governments concerning exports of cotton, wool and man-made fibre textiles and textile products from the Republic of China to the United States. As a result of those discussions, I wish to propose the following agreement relating to trade in cotton, wool, and man-made fibre textiles and apparel products between the Republic of China and the United States, to replace and supersede, effective 1 January 1975, the existing Cotton Textile and Wool and Man-Made Fiber Textile Agreements of 30 December 1971, as amended.

5. Exports of wool and man-made fibre textiles from the Republic of China to the United States chargeable to the agreement year beginning 1 October 1974 of the Agreement of 30 December 1971, shall be charged to the appropriate limits for the Agreement year beginning 1 January 1975.

6. Within the aggregate limit, as it may be adjusted under paragraph 7, export limits in each group may be exceeded in any agreement year by the percentage of such group limit indicated as follows: Group I, 15 per cent; Group II, 7 per cent; Group III, 1 per cent. Within the aggregate and applicable group limits as adjusted pursuant to this paragraph, and paragraph 7, exports in categories with specific limits may exceed such limits by the following percentages: Categories in Group I, 10 per cent; categories in Group II, 7 per cent; categories in Group III, in the event specific limits shall be established in that group, 5 per cent. The above percentage figures shall be calculated without regard to the adjustments provided for under paragraph 8 or this paragraph.

7. For the third agreement year the aggregate limit shall be increased by 6.25 per cent. Within that limit, the limit for Group III shall be increased by 1 per cent. Within the aggregate and applicable group limits, all specific limits shall be increased by 6.25 per cent annually except those limits in Group III which shall be increased by 1 per cent.

The amounts resulting from the application of a 6.25 per cent growth to the aggregate limit and a 1 per cent rate of growth to the limits for Group III shall be divided pro rata among Groups I and II.

8.(a) For the first and succeeding agreement years, exports may exceed by a maximum of 11 per cent the aggregate limit and any specific limit by allocating to the limits for that year an unused portion of the applicable limit for the previous agreement year (carry-over) or a portion of the applicable limit for the succeeding agreement year (carry-forward).

(i) Carry-over may be utilized as available up to 11 per cent of the receiving year's applicable limits, but for the first agreement year only shall be limited to 3 per cent.

(ii) Carry-forward may be utilized up to 6 per cent of the receiving year's applicable limits and charged against the next year's applicable limits.

(iii) The combination of carry-over and carry-forward may not exceed 11 per cent of the receiving year's applicable limits in any agreement year.

(b) For purposes of this Agreement, a shortfall occurs when exports from the Republic of China to the United States during an agreement year are below the aggregate limits in this Agreement or the limits in force for the period ending 30 September 1974 for wool and man-made fibre textiles, and the period ending 31 December 1974 for cotton textiles, as provided in the Agreements of 30 December 1971. In the agreement year following the shortfall, exports from the Republic of

of China to the United States may be permitted to exceed the aggregate, group and specific limits in accordance with the provisions of sub-paragraph (a) and (b) of this paragraph by carry-over of shortfalls in the following manner:

(i) The carry-over shall not exceed the amount of shortfall in either the aggregate limit or any applicable group or specific limit; and

(ii) In the case of shortfalls in the categories (or combination of categories) subject to specific limits, the shortfalls shall be used in the same category (or combination of categories) in which the shortfall occurred; and

(iii) In the case of shortfalls not attributable to categories (or combination of categories) subject to specific limits, the carry-over shall be used in the same group in which the shortfall occurred.

(c) The limits referred to in sub-paragraphs (a) and (b) of this paragraph are without any adjustment under this paragraph or paragraph 6 above.

(d) The total adjustment under this paragraph shall be in addition to the adjustments permitted by paragraph 6 to the limits for any year.

9.(a) Categories not given specific limits are subject to consultation levels and to the aggregate and applicable group limits. In the event the Government of the Republic of China wishes to permit exports to the United States in any category in excess of the applicable consultation level during any agreement year, the Government of the Republic of China shall request consultations with the Government of the United States of America on this question and the Government of the United States of America shall enter into such consultations. Until agreement on a different level of exports is reached, the Government of the Republic of China shall limit exports to the United States in the category in question to the consultation level. For the first agreement year, the minimum consultation level for each category not given a specific limit shall be 1,000,000 square yards equivalent in cotton non-apparel categories 1-38 and 64; 700,000 square yards equivalent in cotton apparel categories 39-63; 1,250,000 square yards equivalent in man-made fibre non-apparel categories 200-213 and 241-243; 875,000 square yards equivalent in man-made fibre apparel categories 214-240; and 125,000 square yards equivalent in wool categories 101-132. For the second and succeeding agreement years, these consultation levels shall be 1,000,000 square yards equivalent for non-apparel categories, 700,000 square yards equivalent for apparel categories and 100,000 square yards equivalent for wool categories.

(b) Consultation levels higher than the foregoing amounts for the first agreement year are set forth in Annex B. For the second and third agreement years, the following procedures shall apply with respect to exports during each of those agreement years in each category not subject to a specific limit:

(i) By 15 November immediately preceding the applicable agreement year the Government of the Republic of China shall notify the Government of the United States of America of anticipated exports in each such category during that agreement year. Following receipt of such notice, the Government of the United States of America shall have thirty days in which to request consultations with respect to any category.

(ii) When the Government of the United States of America requests consultations, the Government of the Republic of China shall meet promptly with the Government of the United States of America to work out a mutually satisfactory solution to such problems as may exist with respect to the anticipated exports referred to under (a) of this paragraph. The consultations shall be concluded within thirty days, unless the two Governments agree otherwise. In the event that such consultations do not result in a mutually acceptable solution, the Government of the Republic of China shall limit its exports in any category in question during the agreement year in question to the level requested by the Government of the United States of America at the conclusion of such consultations.

(iii) If no consultations are requested by the Government of the United States of America, the Government of the Republic of China shall not permit exports to exceed the level stated by the Government of the Republic of China under (a) of this paragraph without the specific concurrence of the Government of the United States of America to such additional exports. The Government of the Republic of China may request such concurrence at any time it believes appropriate. The Government of the United States of America shall give due consideration to such request and shall respond within twenty-one days of receipt of such request.

10. Overshipments in Categories 219, 224, 229, 240, 242, 121, 122, 125, and 103 from the Republic of China received by the United States during the period 1 October 1971 to 30 September 1972, for which partial compensation has already been received, shall be further compensated for as set forth below:

In the agreement year beginning 1 January 1975, shipments in Category 219 shall be reduced by 1.5 million square yards and in Category 224 by 2 million square yards. For the agreement year beginning 1 January 1976, shipments in Category 219 shall be reduced by 1.5 million square yards.

11. The Government of the Republic of China will use its best efforts to space exports to the United States of America within each category evenly throughout the agreement year, taking into consideration normal seasonal factors.

12. The Government of the United States of America shall promptly supply the Government of the Republic of China with data on monthly imports of cotton, man-made fibre and wool textiles from the Republic of China; and the Government of the Republic of China shall promptly supply the Government of the United States of America with data on monthly exports of cotton, man-made fibre and wool textiles from the Republic of China to the United States of America. Each Government agrees to supply promptly any other pertinent and readily available statistical data requested by the other Government.

13.(a) In implementing this Agreement, the system of categories and the rates of conversion into square yards equivalent listed in the Annex A hereto shall apply.

(b) Tops, yarns, piece goods, make-up articles, garments, and other textile manufactured products (being products which derive their chief characteristics from their textile components) of cotton, wool, man-made fibres, or blends thereof, in which any or all of those fibres in combination represent either the chief value of the fibres or 50 per cent or more weight (or 17 per cent or more by weight of wool) of the product, are subject to this Agreement.

(c) For purposes of this Agreement, textile products shall be classified as cotton, wool or man-made fibre textiles if wholly or in chief value of either of these fibres. All other products described in sub-paragraph (b) of this paragraph shall be classified as;

(i) Cotton textiles if containing 50 per cent or more by weight of cotton, or if the cotton component exceeds by weight the wool and/or the man-made fibre component.

(ii) Wool textiles if not cotton, and the wool equals or exceeds 17 per cent by weight of all component fibres.

(iii) Man-made fibre textiles if neither of the foregoing applies.

14.(a) The limitations in this Agreement shall not apply to handloom fabrics of the cottage industry of the Republic of China, or to folklore handicraft textile products traditional to the Republic of China, provided that such products are properly certified under arrangements between the two Governments.

(b) All items previously agreed upon as being exempt from the Cotton Textile and the Wool and Man-Made Fiber Textile Agreements of 30 December 1971, shall be exempt from the provisions of this Agreement, and the certification procedures provided therefore shall be continued for the duration of this Agreement.

15. If the Government of the Republic of China considers that the Republic of China is being placed in an inequitable position vis-à-vis a third country, the Government of the Republic of China may request consultations with the Government of the United States with a view to taking appropriate remedial action. The United States will consult with the Government of the Republic of China in the event of such a request.

16. Mutually satisfactory administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of this Agreement, including differences in points of procedure or operation.

17. The Government of the Republic of China and the Government of the United States of America agree to consult on any question arising in the implementation of this Agreement.

18. For the duration of this Agreement, the Government of the United States of America shall not invoke the procedures of Article 3 of the Arrangement to request restraint on the export of cotton, wool and man-made fibre textiles from the Republic of China to the United States.

19.(a) The Government of the Republic of China shall administer its export control system under this Agreement. The Government of the United States of America may assist the Government of the Republic of China in implementing the limitation provisions of this Agreement by controlling imports of textile products covered by the Agreement.

(b) The visa system previously agreed upon for certifying shipments under the Cotton Textile and Wool and Man-Made Fiber Textile Agreements of 30 December 1971, shall be continued for the duration of this Agreement.

20. The Government of the Republic of China and the Government of the United States of America may at any time propose revisions in the terms of this Agreement. Each Government agrees to consult promptly with the other Government about such proposal with a view to making such revisions to the present Agreement, or taking such other appropriate action, as may be mutually agreed upon.

21. Either Government may terminate this Agreement effective at the beginning of a new agreement year by written notice to the other Government to be given at least ninety days prior to the beginning of such new agreement year.

If this proposal is acceptable to the Government of the Republic of China, this note and your note of confirmation on behalf of the Government of the Republic of China shall constitute an Agreement between the Government of the Republic of China and the Government of the United States of America.

Accept, Excellency, the renewed assurances of my highest consideration.

Julius L. Katz
