#### AGREED MINUTE

During the course of the negotiations for the conclusion of a new bilateral agreement on trade in textile products between the E.E.C. and Singapore, the Community explained the mechanism proposed for the transfer of proportions of particular regional quota shares of the Community between the Asean countries and presented a proposal as annexed concerning the application of such a mechanism on the import side.

The Singapore Delegation expressed its appreciation of the Community's efforts in making the proposal and undertook to study it.

.

The Singapore Delegation expressed the view that more time was needed to examine the implications of the Community's proposal in view of the administrative problems involved. It was therefore agreed that the two sides should revert to this matter at a later stage.

Brussels, 23 November 1982

## Deer Mr Deafir,

In connection with the Agreement on Trade in Textile Products between the European Economic Community and Singapors initialled on 23 November 1982, I have the honour to propose the following

Transfers into any Category of Group I may be made, after notification, up to 5% of the regional share of a quantitative limit to which the transfer is made, provided that an equivalent quantity is deducted from the share of the corresponding quantitative limit for the same region established in the Community's Agreement with another ASEAN country.

Transfers into any Category of Groups II and III may be made, after notification, up to 10% of the regional share of a quantitative limit to which the transfer is made, provided that an equivalent quantity is deducted from the share of the corresponding quantitative limit for the same region established in the Community's Agreement with another ASEAN country.

Implementation of such transfers shall be subject to receipt of a corresponding notification from the ASEAN country accepting a deduction of the quantitative limit concerned.

Such transfers shall be applicable for the year during which the notifiction is made.

I should be grateful for your confirmation that this proposal is acceptable to you and that this exchange of letters shall constitute an agreement between the European Economic Community and Singapore.

Yours faithfully,

H. G. Krenzler

  - (ii) Anticipation in 1982 of corresponding quantitative limits for 1983
     is authorised for any quantitative limit for the year 1982 up to
     5%, subject to an agreement of the two parties establishing the
     de facto-application of the new bilateral agreement.
- 2. As regards the consultation period foreseen in Article 17, para. 2, Singapore drew attention to the major practical difficulties to which so short a period could give rise in the case of Singapore. The Community expressed understanding for such practical difficulties.

Brussels, 23 Movember 1982

Dear Mr. Dzafir,

During the negotiations for the renewal of our bilateral Agreement on trade in textiles, both parties expressed their intention to fully collaborate in the finding of satisfactory solutions to any problem resulting from the application of the Agreement.

It is agreed that either party is at all times free to raise any matter arising out of the application of the present Agreement with the Textiles Surveillance Body (T.S.B.) in conformity with the relevant provisions of the Geneva Arrangement.

Yours sincerely,

Directorate-General for External Relations

Dr Horst G. Krenzler Director Special Representative for textile negotiations

Dear Mr Ridzwan Dzafir,

In the course of the negotiations which led to the initialling today of an agreement between the Community and Singapore on trade in textile products, you informed me that Singapore was in the process of introducing the export certificate as specified in Protocol A of the new agreement. You indicated that this certificate would be in use by 1st April 1983, but that the existing export certificate Would continue to be used until then. You also specified that the name of the authority responsible for issuing these certificates would be changed to "Trade Development Board" with effect from 1 January 1983; the specimen stamps which are to be used by that authority will be provided by you in due course.

As regards the new certificate numbering system provided for in Protocol A, you informed me that a different numbering system was in use in Singapore and had been computerized at considerable expense. You said that this sytem was an integral part of Singapore's general system for export documents. Introduction of the new system might therefore cause difficulties and you were unable to indicate when it could be introduced.

I took note of the above information.

Yours sincerely,

Horst G. Krenzler
