Production, Employment and Trade Statistics
1973-1979

Introduction

At the meeting of the Technical Sub-Group on Textile Documentation held on 22 March 1979, it was generally agreed that the data submitted by members of the Arrangement under the reporting scheme of textile and apparel statistics should be regularly circulated to members of the Textiles Committee.

Accordingly, the statistics contained in this document have been compiled from data submitted under the reporting scheme, supplemented by data available from the UN Statistical Office, the OECD and from national statistics.

The secretariat has also prepared more detailed annual statistics on trade in a number of textile products (e.g. yarns, fabrics, made-ups and various clothing items) by origin and destination, value and quantity, for all member countries of the Arrangement who submit trade data on magnetic tape to the UN Statistical Office. These statistics, in addition to the production data for textile and clothing products, and the investment and value added data collected under the reporting scheme are available to delegations on request.

CLOSING DATE

Explanatory Notes

A. Production and Employment

The following definitions have been used:

Textiles - ISIC¹ major group 321. This includes spinning, weaving and finishing; the manufacture of made-up textile goods except wearing apparel; knitting mills; the manufacture of carpets and rugs; cordage rope and twine industries; the manufacture of textiles not elsewhere specified. All materials are included.

Clothing - ISIC major group 322. This includes the manufacture of wearing apparel, except footwear. All materials are included.

Manufacturing - ISIC major group 3.

B. Trade

The following definitions have been used:

Textiles - SITC² Rev.1 division 65. This includes yarns, fabrics, made-ups and related products.

Clothing - SITC Rev.1 division 84.

The quarterly data include products of all materials. In some cases, the continuity of the series has been interrupted due to the implementation (mainly in 1978) of the SITC Revised 2 which is not strictly comparable to the earlier SITC Revised 1.

¹United Nations "International Standard Industrial Classification of All Economic Activities" Rev.2, 1968.

²United Nations "Standard International Trade Classification".

The annual data exclude products other than those of cotton, wool and man-made fibres which are not covered by the Arrangement to the extent they can be identified in the SITC Revised 1. In effect, it has been possible to exclude only yarns and fabrics not of cotton, wool and man-made fibres, bags and sacks of textile materials, floor coverings of vegetable plaiting materials and clothing of leather, rubber and fur. When data according to the SITC Rev.2 are generally available, a more precise approximation of products covered by the Arrangement should be possible.

The groupings of trading partner countries follow those adopted in earlier studies and are as follows:

Developed Countries

Canada, United States

European Communities - Belgium-Luxembourg, Denmark, France, the Federal Republic of Germany, Ireland, Italy, the Netherlands, the United Kingdom

Austria, Finland, Iceland, Norway, Sweden, Switzerland

Japan

Australia, New Zealand, South Africa

Developing Countries

Countries and territories in Latin America, South and East Asia, the Middle East, Africa, Oceania and Southern Europe (including Romania) not included in other areas

Eastern Trading Area

Albania, Bulgaria, Czechoslovakia, the Democratic Republic of Germany, Hungary, Poland, the Soviet Union, China, Mongolia, North Korea and Vietnam

The Member Countries of the Arrangement have been grouped as follows:

Developed Members

EC, Finland, Sweden, Austria, Switzerland, Canada, United States, Japan.

Developing Members

Turkey, Yugoslavia, Romania
Egypt, Israel, Ghana
Bangladesh, India, Pakistan, Sri Lanka, Hong Kong, Korea,
Macau, Singapore, Malaysia, Thailand, Indonesia, Philippines
Bolivia, Brazil, Colombia, Peru, Uruguay, Mexico, Dominican
Republic, El Salvador, Guatemala, Haiti, Jamaica, Trinidad and
Tobago

Eastern Trading Area Members

Hungary, Poland

Values are in millions of US dollars. Exports are valued f.o.b., imports are valued c.i.f. with the exception of Canada and the United States for which imports are valued f.o.b.

Data for the EC exclude intra-community trade. The annual statistics are aggregated from national data provided by individual member states to the UN Statistical Office, and are not strictly comparable with regard to definitions of trade (special/general) and of countries of origin (provenance) and destination. Revised data will be circulated when the harmonized series are received. The 1978 data for the United States are also provisional and subject to revision.

When production, employment or trade data are not available for a member country of the Arrangement, that country has not been listed.
