Table 1A

- ¹ Excluding the Netherlands and Ireland.
- ² Excluding monofil and strip.
- ³ Excluding Ireland.
- ⁴ Excluding the Netherlands.
- ⁵ Excluding Germany which is included in position 25.
- ⁶ Including position 24 for Germany.
- ⁷ Excludes Italy.

The data are collected on a commodity basis and refer to manufacturers' sales for Denmark and the United Kingdom, total output for other member states of the EC.
The data are collected from establishments employing a minimum number of employees varying from 6 to 25 depending on the member states and on the products concerned.

Production refers to fibres not carded or combed, for man-made fibres; first combing only, for tops; single yarn; loomstate for fabrics.

Data are limited to products composed of cotton, wool and man-made fibre.

Products composed of mixed or blended textile fibres are included and are classified according to the dominant fibre by weight.

Quarterly figures include estimates and are subject to revision.

Table 1B

- 1 Production data exclude the Netherlands and Ireland.
- 2 Production data exclude monofil and strip and production of staple (discontinuous) yarn in Ireland.
- 3 Production data exclude Ireland: production of continuous fibre fabrics in the Netherlands is also excluded.
- 4 Production data exclude the production of women's stockings in the Netherlands and Ireland: trade data include non-MFA fibres.
- 5 Production data exclude the Netherlands: trade data comprise panty hose of synthetic fibres.
- 6 Trade data include non-MFA fibres.
- 7 Production data exclude Ireland: trade data comprise knit shirts of cotton and synthetic fibres and woven shirts of all fibres.
- 8 Production data exclude the production of blouses in the Federal Republic of Germany which is included with jerseys etc.
- 9 See footnote 8.
- 10 Trade data comprise coats, raincoats, cloaks and capes not knit.
- 11 Trade data exclude knit skirts of regenerated fibres.
- 12 Trade data exclude knit trousers.
- 13 Trade data include knit suits of non-MFA fibres.
- 14 Trade data include blazers and exclude knit jackets.
- 15 Trade data exclude knit trousers and include breeches and the like.
- 16 Production data exclude Italy.

For coverage of the production data see notes to Table 1A above.

Table 5A

Data refer to production of all member firms of the Industry or Commerce Sections of the Federal Economic Chamber. Data are collected on a commodity basis. Products composed of mixed or blended textile fibres are included, but the criteria employed for classification of such products are confidential.

Table 5B

- 1 Trade data from 1978 include woven pile and chenille fabrics.
- 2 Trade data from 1978 include cotton terry fabrics.
- 3 Trade data include non-MFA fibres.
- 4 Trade data exclude knit garments.
- 5 Trade data include jackets.

Table 5C

Data are collected from member establishments of the industry or commerce section of the Federal Economic Chamber. Establishments are classified according to the ISIC. Employees refer to production workers and employees. Working proprietors, active business partners, unpaid family workers and homeworkers are excluded. Production workers include clerical and/or supervisory personnel.

Table 5D

Data are collected from member establishments of the industry or commerce section of the Federal Economic Chamber. Establishments are classified according to the ISIC. Value added by manufacturing is reported in producers' values. Investment refers to gross fixed investment (excluding repairs and maintenance).

Table 7A

- 1 Excludes cotton grey fabrics and cord fabrics.
- 2 Excludes grey cloth fabrics.
- 3 Tufted and other carpets with surface of man-made fibres and of wool and fine animal hair are included; carpets of cotton are excluded.
- 4 Includes infants' garments of woven fabrics.
- 5 Excludes garments manufactured in knitting mills.

Data refer to production (including quantities for further processing within the same plant) at establishments with 5 or more persons engaged.

Data are collected on a commodity basis, i.e. irrespective of the producing sector and the degree of integration of the production unit concerned.

Products of mixed or blended textile fibres are included; they are classified according to the dominating fibre by weight.

Table 7B

- 1 Trade data include non-MFA fibres.
- 2 Production data exclude carpets of cotton.
- 3 Trade data include woven pyjamas and nightdresses of non-MFA fibres: data 1973-1975 also include knitted pyjamas and nightdresses of non-MFA fibres.
- 4 Trade data 1973-1975 include knit undergarments of non-MFA fibres.
- 5 Production data 1973-1974 include infants' garments of woven fabrics. Trade data 1973-1975 include shirts of non-MFA fibres; data 1976 onwards exclude knit-shirts of non-MFA fibres.

Table 7B (cont'd)

- 6 Production data exclude knit blouses manufactured in knitting mills.
- 7 Trade data 1973-1975 comprise woven blouses only: data 1976 onwards also include knit blouses of continuous synthetic fibres, cotton and discontinuous man-made fibres, as well as woven blouses of non-MFA fibres.
- 8 Trade data 1973-1975 exclude jerseys, etc. of discontinuous regenerated fibres.
- 9 Trade data comprise woven overcoats for women and girls: 1974 data also include jackets.
- 10 Trade data 1973-1975 comprise dresses and costumes for women and girls: data from 1976 onwards comprise women's and girls' dresses, suits and costumes and knit skirts.
- 11 Trade data refer to woven skirts for women and girls.
- 12 Trade data refer to woven trousers for women and girls.
- 13 Trade data refer to overcoats not knit: data 1976 onwards refer only to those of cotton and wool.
- 14 Trade data exclude knit suits.
- 15 Trade data exclude knit jackets: 1974 data also include some coats.
- 16 Trade data comprise woven trousers.

Production data are collected from establishments with 5 or more persons engaged.

Source: Trade in clothing: compiled from Swedish foreign trade statistics.

Table 7C

The data are collected from establishments with 5 or more persons engaged. Establishments are classified according to the ISIC. Employees refer to all persons engaged, excluding proprietors, active business partners, unpaid family workers and home workers: the data (for salaried employees) are collected quarterly. Production workers refer to wage earners directly engaged in production and related activities, including working supervisory personnel: the statistics are collected monthly.

Table 7D

The data are collected from establishments with 5 or more persons engaged. Establishments are classified according to the ISIC. Value added by manufacturing is in factor values. Investment (gross fixed capital formation) excludes used fixed assets.

The data refer to total output and are collected from all companies and co-operatives in the light industry sector. Data for yarns and fabrics include products of mixed or blended fibres.

Table 9C

The data are collected from establishments in the light industry sector. Establishments are classified according to the national industrial classification. "Textiles" comprise the cotton industry, flax, hemp and jute industry, wool industry, silk industry, haberdashery industry and knitwear industry. "Clothing" comprises the textile clothing industry. Employees refer to all persons engaged in the social and cultural institutions of the establishment, including home-workers, apprentices and gainfully employed pensioners. Production workers refers to employees engaged in physical/manual work whether they are or are not directly or indirectly engaged in production.

Table 14A

- 1 Includes wool/man-made fibre yarn. 2 Includes cotton/man-made fibre yarn.
- 3 Annual data include texturized yarn. 4 From Q1 1979 quarterly data refer to cotton corduroy, formerly included in other woven cotton fabrics (No. 13): beginning with Q4 1979 also including cotton/man-made fibre corduroy.
- 5 Quarterly data include cotton/man-made fibre piece goods. 6 Includes pile and chenille fabrics (No. 9) and man-made fibre fabrics (14 + 15). 7 Includes rugs. 8 Includes undergarments (No. 22).
- 9 Includes blouses, etc. (No. 23) and jerseys, etc. (No. 25). 10 Comprises sweaters, cardigans and pullovers.
- 11 Includes dresses, etc. (No. 27) and skirts, etc. (No. 28). 12 Includes trousers, men and boys (No. 29).
- 13 Includes suits (No. 31) and jackets (No. 32). 14 Included in overcoats, men and boys (No. 30).

Production of clothing items excludes infants' wear.

Annual production data for 1973 refer to sales reported by establishments with 10 or more persons engaged; 1974 and 1975 data refer to production figures reported by establishments with 10 or more persons engaged; from 1976 onwards data refer to sales reported by establishments of all sizes.

Quarterly production data are collected from all establishments classified in the spinning and weaving sectors; for the items reported, production outside the industries surveyed is not included but is believed to be negligible. Quarterly data are not comparable with annual data.

Table 14C

Commencing December 1974, the data have been collected from all establishments known to the HK Census and Statistics Department. The annual averages for 1973 and 1974 are a result of grossing up the old series, collected from registered establishments, to arrive at a comparative pre-December 1974 level.

Establishments are classified according to the ISIC.

Employees refer to salaried employees, working proprietors, active business partners and unpaid family workers. Homeworkers are excluded.

Production workers refer to employees directly engaged in the production process.

Quarterly data are as at the middle of the last month in the quarter.
