Note by the Secretariat

1. At its meeting in December 1964 the Cotton Textiles Committee decided that the work undertaken by the secretariat in preparation for the major review of the Long-Term Arrangement should inter alia include a detailed analysis of the operation of the Arrangement in the first three years of its existence.¹ This note by the secretariat mainly summarizes action taken or contemplated under the Arrangement during its first, second and third year, as notified by participating countries; attached to the note are tables which give further relevant information. For detailed information on specific points, reference should be made to the documents quoted.

I. PARTICIPATION²

2. The Arrangement entered into force on 1 October 1962 for Belgium, Canada, Denmark, France, the Federal Republic of Germany, India, Israel, Italy, Japan, Luxemburg, the Netherlands, Norway, Pakistan, Portugal, Spain, Sweden, the United Arab Republic, the United Kingdom (also in respect of Hong Kong) and the United States. Australia accepted the Arrangement on 21 November 1962 and Austria on 24 October 1962. Mexico acceded on 11 December 1962 and Colombia on 30 January 1963.

II. ACTION TAKEN OR CONTEMPLATED UNDER THE ARRANGEMENT

A. Notifications under Article 2

3. Article 2, paragraph 1, of the Arrangement provides that "those participating countries still maintaining restrictions inconsistent with the provisions of the GATT on imports of cotton textiles from other participating countries agree to relax those restrictions progressively each year with a view to their elimination as soon as possible". Paragraph 3 of this Article and Annex A contain detailed provisions designed to expand access for cotton textiles subject to import restrictions while paragraph 7 lays down that "the participating countries shall notify the Cotton Textiles Committee as early as possible and in any case, not less than one month before the beginning of the licensing period, of the details of any quota or import restriction referred to in this Article".

4. Notifications under Article 2, paragraph 7, received from Austria, Denmark, Norway, Sweden and from the Commission of the European Economic Community, as well as notifications received from Australia and the United States, are reproduced in COT/16, 40 and 58.

(a) Austria notified details of the quotas on imports from Japan, India, Israel, Mexico, Pakistan and the United Arab Republic and changes in quotas which took place during the three years of the Arrangement, as well as those envisaged during the remainder of the Arrangement. Further details are given in Table A.

(b) Denmark notified that no changes have taken place or are envisaged in the quota fixed in the bilateral arrangement between Denmark and Japan for the period of five years from 1 January 1963 to 31 December 1967. The quota for imports of cotton yarn from the United Arab Republic is increased yearly by 3 per cent. Apart from this quota, imports of cotton textiles are subject to Danish import licensing in the case of the United Arab Republic, Colombia and the Republic of Korea. Further details are given in Table B.

(c) Norway notified restrictions and quotas on imports of certain types of cotton textiles from Japan during the first, second and third year of the Arrangement, as well as items which have been liberalized during this period. Norway has also transmitted information on the size of the quota opened for the Republic of Korea as of 1 October 1965. For further details see Table C.

(d) Sweden notified that Japan is the only participating country with respect to which Sweden maintains import restrictions. During the first year of the Arrangement the Governments of Sweden and Japan agreed on a special quota for such cotton textiles which were subject to restrictions when imported from Japan. The quota

was fixed at Sw.Crs.3.5 million, one fifth of the total increase undertaken by Sweden in Annex A of the Arrangement was included in this figure. During the second year of the Arrangement a modification was introduced to the effect that goods - cotton gauze and carpets, other than knitted - to an approximate value of Sw.Crs.0.5 million were exempted from restrictions without any corresponding lowering of the total value of the quota. During the third year no changes have taken place as negotiations being conducted between Sweden and Japan have so far not been concluded.

(e) The Commission of the European Economic Community transmitted information on the quotas opened in 1962, 1963, 1964 and 1965 for each Member State for imports of cotton textiles subject to restrictions from Hong Kong, India, Japan, Pakistan, as well as quotas opened for the Republic of China (Taiwan) and the United Arab Republic during 1964 and 1965 and the Republic of Korea during 1965. The Commission has also provided a list of items liberalized by Member States since the entry into force of the Long-Term Arrangement. For further details see Table D.

5. Australia informed the secretariat that it has no restrictions or quotas operating on cotton textiles and that no changes in this situation are envisaged during the remaining period of the Arrangement. The United States notified the secretariat that the United States does not maintain any restrictions on imports of cotton textiles as referred to in Article 2.

B. Notifications under Articles 5 and 6(c)

6. Article 5, paragraph 1, provides that "if imports from a participating country or countries into another participating country of certain cotton textile products not subject to import restrictions should cause or threaten to cause disruption in the market of the importing country, that country may request the participating country or countries whose exports of such products are, in the judgement of the importing country, causing or threatening to cause market disruption to consult with a view to removing or avoiding such disruption. In its request, the importing country will, at its discretion, indicate the specific level at which it considers that exports of such products should be restrained, a level which shall not be lower than the one indicated in Annex B. The request shall be accompanied by a detailed factual statement of the reasons and justifications for the request; the requesting country shall communicate the same information to the Cotton Textiles Committee at the same time".

7. Article 3, paragraph 6 lays down that "participating countries having recourse to the provisions of Article 3 will report from time to time and, in any case, once a year to the Cotton Textiles Committee on the progress made in the relaxation or elimination of such measures."

8. Article 6(c) provides that "participating countries agree that if it proves necessary to resort to the measures envisaged in Article 3 above, the participating importing country or countries concerned shall take steps to ensure that the participating countries' exports against which such measures are taken shall not be restrained more severely than the exports of any country not participating in this arrangement, which are causing, or threatening to cause, market disruption".

9. In the first three years of the Long-Term Arrangement, Canada, the Federal Republic of Germany, Italy and the United States took action pursuant to Articles 3 and 6(c) as regards imports of certain specific cotton textiles items. The aggregate limit and specific ceilings were to be increased by 5 per cent for the second year beginning 1 July 1965; for the third agreement year these levels are to be increased by a further 5 per cent over the levels of the second year. To make allowance for the termination of restraint action under Article 3 one-time adjustments were applied to the specific ceilings established for the above categories.

(k) Republic of the Philippines¹

In accordance with the bilateral agreement (COT/23), which is to continue in force through 31 December 1967, the Republic of the Philippines agreed to limit exports to the United States in all categories of cotton textiles to an aggregate level during the calendar year 1964. The limitation on exports established under this agreement was to be raised by 5 per cent for the calendar year 1965 and is to be raised, on a cumulative basis, for each subsequent calendar year. COT/23/Add.1, sets out amendments to this agreement in respect of calendar year 1965 only. Because of special circumstances, exports of 3 million square yards equivalent in category 1-27 are not to be counted against the export limits set out in the above arrangement: a specific ceiling for exports of cotton duck was fixed.

(l) Poland¹

In the bilateral agreement (COT/38) it was agreed that restraint levels be applied on exports from Poland to the United States in Categories 46 and 47 for the twelve-month period starting 26 May 1964. COT/38/Add.1 indicates that the two Governments agreed that Poland would limit exports in category 46 to the United States for the twelve-month period beginning 26 May 1965.

(m) Portugal

In accordance with the bilateral agreement (COT/24) Portugal agreed to maintain, for a period of three years, beginning 1 January 1964, an annual aggregate limit for exports of cotton textiles to the United States and annual limits for major groups subject to the provisions of this agreement. In the bilateral agreement (COT/8), which is to continue in force through 30 September 1967, the Republic of China agreed to limit exports to the United States in all categories of cotton textiles for the twelve-month period beginning 1 October 1963. The limitation of exports as established in this agreement was to be increased by 5 per cent for the twelve-month period beginning 1 October 1964, and for each subsequent year, is to be increased by 5 per cent over the levels of the immediately preceding twelve-month period. In a further amendment, (COT/8/Add.2) the United States agreed to the one-time admission of all embargoed shipments classified in category 57 and exported prior to 30 September 1964 and to an increase in the ceiling for this category during the year commencing 1 October 1964. COT/8/Add.3 sets out amendments to the agreement regarding the establishment of a ceiling for category 25 and providing for an increase in the export ceiling for Category 6 for the second year of the agreement commencing 1 October 1964.

(o) Republic of Korea

In accordance with the bilateral agreement (COT/48), which is to continue in force through 31 December 1967, the Republic of Korea agreed to limit exports in all categories of cotton textiles for the twelve-month period beginning 1 January 1965 to an aggregate limit, within which group ceilings and specific ceilings were to be applied. The levels established in this agreement are to be increased by 5 per cent for the calendar year 1966. For the calendar year 1967, each of these levels is to be increased by a further 5 per cent over the levels for the calendar year 1966.

(p) Spain

COT/3 contains information on two bilateral arrangements between the United States and Spain. In the first of these, Spain agreed to restrain exports to the United States in categories 1, 2, 9, 15, 18-19, 22, 48, 58 between 1 October 1962 and 30 September 1963. In the second, Spain agreed to control its exports of all cotton textiles to the United States for the twelve-month period beginning 1 October 1963: the agreement is to continue until the expiration of the Long-Term Arrangement. In an amendment to this agreement (COT/3/Add.1), the two Governments agreed that the separate export ceilings for some categories might be combined under a group ceiling, and ceilings for others increased, provided that as a result of these adjustments the aggregate ceiling in the original agreement would not be exceeded.

COT/3/Add.2 transmits the text of a new agreement which modified the above agreements. In accordance with this agreement, which is to continue in force through 31 December 1968, Spain agreed to limit exports to the United States in all categories of cotton textiles for the twelve-month period beginning 1 January 1965 to an aggregate limit within which group ceilings and specific ceilings were to be applied: these limits are to be raised by 5 per cent for the twelve-month period beginning 1 January 1966 and by 5 per cent on a cumulative basis, for each subsequent twelve-month period.

COT/3/Add.3 sets out amendments to this new agreement in accordance with which a breakdown of items in category 64 was to be established.

In accordance with the bilateral agreement (COT/32), which is to continue in force through 30 June 1967, Turkey agreed to limit exports in all categories of cotton textiles to the United States for the twelve-month period beginning 1 July 1964. In accordance with the bilateral agreement (COT/20), the United Arab Republic agreed to maintain an annual aggregate limit for exports of all categories of cotton textiles to the United States for the twelve-month period beginning 1 October 1963. The agreement shall continue in force through 30 September 1967. The limitation on exports of the specific ceilings, as well as sub-ceilings, established in this agreement was to be increased by 5 per cent for the twelve-month period beginning 1 October 1964, and by 5 per cent, on a cumulative basis, for each subsequent year.

(s) Yugoslavia¹

In accordance with the bilateral agreement (COT/36), Yugoslavia agreed to limit exports to the United States in all categories of cotton textiles for the twelve-month period beginning 1 January 1965. The agreement is to continue in force through 31 December 1967. The levels established in the agreement are to be increased by 5 per cent for the calendar year 1966 and by a further 5 per cent, over the level for 1966, for the calendar year 1967.
