Import licences are issued to the importer in original and duplicate, supported by a stamped and numbered copy of the indent in each case. The original is required for clearance of the goods through the customs on arrival in the country and as authority for obtaining any foreign exchange required. The duplicate licence is provided for use by the supplier and for compliance with any formalities required by the country of supply.

(b) Foreign exchange - A specific numbered import licence for goods of foreign origin is valid only for the exchange of the country whose name appears prefixed to the number of the licence. If the value of the goods covered by the licence is less than the amount of foreign currency stated on the licence the importer is not permitted, without special authority from the Imports Controller, to use the balance to pay for other goods, but any foreign money credited and thus established must be declared as required under the Exchange Control Ordinance (Cap. 294).

(c) Expiration of licences - Specific import licences are valid only for the period shown on the licence. Extension of this period of validity must not be assumed as automatic and in all cases importers should apply to the Imports Controller for any extension required within the validity of the licence.

(d) Other legislation - The possession of an import licence does not authorize the importation of goods, the importation of which is prohibited under the East African Customs Management Act, 1952, or other legislation, and nothing in this Notice shall be construed as exempting anyone from complying with any legislation in force.
