TARIFFS AND TRADE

CONTRACTING PARTIES  
Twenty-Fifth Session

PREFERENTIAL TARIFF TREATMENT AFFORDED TO  
CERTAIN LIBYAN PRODUCTS IN THE ITALIAN MARKET

Report by the Government of Libya

1. In accordance with the Decision by the CONTRACTING PARTIES to the General Agreement on Tariffs and Trade of 9 October 1952 as amended by the Decisions of 25 November 1955, 20 November 1958, 16 November 1961 and 25 January 1965, the provisions of paragraph 1 of Article I of the General Agreement were waived to the extent necessary to permit the Government of Italy to grant special customs treatment to certain products of Libyan origin when imported into Italy.

2. These privileges have been granted by the CONTRACTING PARTIES in response to requests presented by the Italian and Libyan Governments, for definite periods of time, subject to review by the CONTRACTING PARTIES on the expiry of the specified periods.

3. By Decision of the CONTRACTING PARTIES late in 1967<sup>1</sup> the scope of the special treatment given to Libyan products in the Italian market was narrowed by the exclusion of certain items, and the period of exemption from customs was extended until 31 December 1969, subject to the condition that the whole situation be reviewed by the CONTRACTING PARTIES before the end of 1968.

4. The Decision in question also provided that the Libyan Government should submit an annual report showing the relevant foreign trade statistics. In compliance with this provision, I have the pleasure to submit the attached tables which show the quantum and value of Libya's exports during the three years 1965 to 1967.

Three documents are attached, viz:

(i) Commodities subject to special treatment according to the GATT Decisions:

Table (A) Exports to all destinations;

Table (B) Exports to Italy;

Table (C) Exports to countries other than Italy.

<sup>1</sup>BISD, Fifteenth Supplement, page 85.

(ii) Libyan commodities exported subject to ordinary customs tariffs:

Table (A) Exports to all destinations;

Table (B) Exports to Italy;

Table (C) Exports to countries other than Italy.

(iii) Commodities of Libyan origin ordinarily exempted from customs duty in the Italian market:

Table (A) Exports to all destinations;

Table (B) Exports to Italy;

Table (C) Exports to countries other than Italy.

5. The total value of Libyan exports, of domestic origin, in 1967 was £L417,329,111 of which £L85,339,189 represented the value of exports to Italy. These figures compared with £L352,338,198 and £L40,270,495 respectively in 1966. The growth in Libya's foreign trade between 1966 and 1967 was, as in previous years, due to the rise in petroleum exports whose value constituted 99.8 per cent of the total value of domestic exports in 1967 as against 99.7 per cent in 1966.

The following table summarizes Libya's exports of the main exportable items to all destinations and to Italy in 1967:

PRINCIPAL DOMESTIC EXPORTS FROM LIBYA 1967

Code	Commodity	Exports to all countries £L	Of which exports to Italy £L
331010	Crude petroleum	416,426,436	84,876,538
221110	Groundnuts	248,939	90,366
221700	Castor-oil seeds	58,459	58,459
211001/5	Hides and skins	256,553	176,423
282000	Scrap metal, ferrous	88,284	88,284
051110	Oranges	96,894	1,393

6. On the occasion of the special treatment of Libyan products in the Italian market coming up for review by the CONTRACTING PARTIES to the General Agreement on Tariffs and Trade, the Libyan Government wishes to express its appreciation to the Italian Government and to the CONTRACTING PARTIES for the understanding and sympathetic consideration with which previous Libyan requests for the

exemptions in question have been treated in the past. The Libyan Government now feels that the time has come for it to request the CONTRACTING PARTIES that the waivers to paragraph 1, of Article I of the General Agreement on Tariffs and Trade should cease to be effective in respect of Libyan products in the Italian market as from 1 January 1969. Owing to the size of the trade in question, the above privileges have in practice been quite small, and their effect has been diminishing in importance pari passu with the growing prosperity of Libya. Furthermore, the rising level of local consumption of Libya's non-petroleum exportable commodities and the growing local markets for them as a result of Libya's current industrialization programme reduce the availability for export of the said products. The Libyan Government is therefore requesting the discontinuation of the special treatment of Libyan products in the Italian market as from 1 January 1969.
