## NOTIFICATIONS OF IMPORT RESTRICTIONS OF NEWLY-INDEPENDENT COUNTRIES

### Addendum

#### KENYA

1. Kenya maintains import restrictions in the form of a requirement for specific licensing against imports of products listed below. Most of the items are subject to specific restrictions for the protection of agriculture and local infant industries.
2. Certain items (see list of symbols) are channelled on to the Kenya market through a State-trading organization. Scrupulous non-discrimination is maintained in this State-trading channel, the principal purpose of which is to assist new and upcoming businessmen and ensure that some trade passes through the hands of the new businessmen who have to be encouraged and assisted to be part of Kenya's economic life. Such participation is an essential prerequisite to attainment of the social and political aims of the Kenya Government.
3. As of 12 November 1968, goods of Japanese origin have been placed on open general licence (i.e. no import licence is required) except to the extent that specific licensing is required for goods of other foreign countries.
4. Imports of all goods originating in Tanzania and Uganda are authorized under an open general licence.
