NOTIFICATIONS OF IMPORT RESTRICTIONS OF NEWLY-INDEPENDENT COUNTRIES

Addendum

BARBADOS¹

The Government of Barbados has submitted the following information concerning import restrictions in force in Barbados up to July 1969.

1. The information attached shows the goods which are subject to import restrictions and details concerning the application of such restrictions.
2. The Government of Barbados permits entry on open general licence for all goods, other than those set out in the Second and Fourth Schedules to the Exports and Imports (General Open Import Licence) Order 1968 from all countries of the world except those listed in the First Schedule to the said Order.
3. It should be noted that no discrimination exists in relation to trade with Japan. In view of the non-reciprocity of trade with that country, it has been decided that the quantity and value of imports should be kept under constant review in order not to widen an already adverse imbalance of trade with that country and to protect certain local infant industries.
4. Trade with socialist countries is not prohibited, but in order that control can be exercised on trade relations with those countries the Government considers it necessary to license imports.
5. Because of South Africa's apartheid policy and the illegal régime which has been established in Southern Rhodesia, trade with those two countries has been prohibited.
6. Detailed information concerning the applicable import régime and the reason for restriction of items mentioned in the export and import orders following are contained in the table annexed to this notification.

¹For previous notification see L/2984/Add.13.
