## RESTRICTIONS ON IMPORTS FROM POLAND

### Notifications by Contracting Parties

#### Addendum

The following communication has been received from the Commission of the European Communities.

In connexion with the annual review provided for by Article 5 of the Protocol for the Accession of Poland to GATT, I have the honour to communicate to you, for the information of the contracting parties, the list of products on which, in accordance with the national regulations in force, there are no longer any import restrictions in the member States of the Community; this list, hereto attached, comprises 435 entire tariff headings.

Furthermore, the member States apply other measures that are likewise of an autonomous character with respect to Poland. These were notified to GATT last year.<sup>1</sup>

Taking into account the new measures introduced by member States over the past year, the situation is as follows:

	<u>Items<sup>2</sup> liberalized</u>
- for the Federal Republic of Germany	5,176
- for Benelux	987
- for France	901
- for Italy	936

<sup>1</sup>BISD, Sixteenth Supplement, pages 74-77.

<sup>2</sup>The item numbers relate in the case of Benelux, France and Italy to tariff items, in the case of Germany to statistical items. The figure for Germany is not comparable to the figure, 5,180, given in the 1968 notification, the statistical classification system having been modified in the meantime.
