Add the following footnote to paragraph 17:

- "1. This list is intended to be indicative, showing the countries with which consultations of the kind proposed in the preceding paragraphs might usefully be held. For the sake of simplicity it includes all contracting parties which consult annually with the CONTRACTING PARTIES on their balance-of-payments import restrictions, some of whom have not stated that they invoke Article XII. The fact that they consult annually and are thus included in this list in no way implies that they have been determined to be developed countries."

In the third paragraph, delete "under the procedures of Article XII" and substitute "annually on their balance-of-payments restrictions".
