ARTICLE XIX - SPAIN

Action in Respect of Synthetic Rubber

Temporary Compensatory Concessions

Addendum

The following communication, dated 27 January 1970, has been received from the delegation of Spain.

I have the honour to refer to the joint communication¹ by the delegations of Spain and Canada, dated 12 January 1970, concerning the result of the consultations on synthetic rubber (tariff item 40.02 B.1) which took place between the two countries under Article XIX of the General Agreement.

In this connexion, I have to inform you that, because of the present structure of the relevant heading in the Spanish tariff, the Spanish concession should be amended to read as follows:

ex 29.04-B.3 Pentaerithritol - bound free

instead of:

ex 29.04-B.2 Pentaerithritol - bound free

as indicated in the above-mentioned communication.
