CONTRACTING PARTIES
Twenty-Seventh Session

COUNCIL OF REPRESENTATIVES

Report on Work since the Twenty-Sixth Session

In accordance with the Decision of 4 June 1960 establishing the Council of Representatives, the Council is required to report to the CONTRACTING PARTIES on the matters considered by it between sessions of the CONTRACTING PARTIES. The task of the Council was enlarged when the CONTRACTING PARTIES, at their twenty-fifth session, agreed that the Council should undertake a wider range of work. In addition, the Council has been authorized to supervise all aspects of the Work Programme for Expansion of International Trade agreed upon by the CONTRACTING PARTIES at their twenty-fourth session.

In carrying out its task the Council has held thirteen meetings since the twenty-sixth session in February 1970. The minutes of these meetings have been issued in documents C/M/62-74. Adoption by the CONTRACTING PARTIES of this report, which summarizes the action taken by the Council, will constitute approval by the CONTRACTING PARTIES of that action. In respect of the subjects dealt with in paragraphs 39, 46, 51 and 59, specific decisions of the CONTRACTING PARTIES are necessary and the draft decisions recommended by the Council for adoption are attached to this report. In addition the Council recommended the adoption by the CONTRACTING PARTIES of the budget resolution, annexed to document L/3608 and referred to in paragraph 60(i), as well as the recommendations contained in documents L/3527, L/3608 and L/3608/Add.1.

1. Membership of Council (C/M/64, 66)

The Council welcomed at its September 1970 meeting Iceland, and at its meeting on 2 February 1971 the People's Republic of the Congo and Gabon as members of the Council.

2. Meetings of the CONTRACTING PARTIES (C/M/66, 67)

At its meeting on 2 February 1971, the Council considered suggestions put forward by the Director-General to hold the twenty-seventh session in the second half of November 1971 and to hold a short informal meeting in April 1971. On 22 February 1971 the Council agreed to fix the dates for the twenty-seventh session as from 15 to 26 November 1971 and to have an informal meeting of the CONTRACTING PARTIES from 28 to 30 April 1971 to review the current situation in international trade and to hold a review of the work programme.

3. Committee on Trade in Industrial Products (C/M/63, 65, 67, 68, 74)

The Council, under the authorization of the CONTRACTING PARTIES to supervise the work programme for the expansion of international trade, followed closely progress made by the Committee on Trade in Industrial Products in carrying out its work, and from time to time dealt with specific issues referred to it by the Committee.

In July 1970 the Council heard a statement by the Chairman of the Committee on the progress of work of the Committee.

In February 1971 the Council considered the second report of the Committee (L/3496) covering the work between the twenty-sixth session and February 1971.

As regards non-tariff barriers, the Committee had concluded that the next stage of work should be selective and be undertaken with a view to elaborating solutions on an ad referendum basis. The subjects chosen were standards and their

enforcement, problems connected with existing systems of valuation for customs purposes and specific limitations on trade, beginning with the operation of licensing systems. As concerns the tariff study, the Committee reached agreement on the terms of reference for the Working Party on the Tariff Study.

The Council adopted the report and decided that the Committee and Groups should undertake the work envisaged in the second report of the Committee on the tariff study and on the particular non-tariff barrier items indicated in the report, while continuing to explore the possibilities for adding other topics to this work programme.

At its meeting in April 1971 the Council decided that, with respect to the questionnaire on licensing procedures replies should cover all products, agricultural as well as industrial, and submissions should be made so that those relating to agricultural products could be transmitted to the Agriculture Committee. The Working Group on Licensing of the Committee on Trade in Industrial Products would consider licensing systems as measures of general application, subject to the right of the Agriculture Committee to review the applicability to the agricultural sector of any solutions evolved.

At its meeting on 9 November 1971 the Council received the third report of the Committee (L/3609). The three groups which had been asked to elaborate solutions on an ad referendum basis on valuation, standards and licensing systems had all made substantive progress. The Working Party on the Tariff Study had prepared a general analysis of industrial tariffs and trade, product category analyses and supplementary tables, which taken together formed the Working Party's preliminary report. The Council approved the report and agreed that it be submitted to the CONTRACTING PARTIES for consideration at their twenty-seventh session.

4. Agriculture Committee (C/M/63, 66, 74)

At its meeting in July 1970, the Council took note of a statement by the Chairman of the Agriculture Committee to the effect that the Committee had carried its work forward in four working groups, dealing respectively with measures which affect exports, imports, production and other relevant measures.

A report of the Committee (L/3472) was presented to the Council at its meeting of 2 February 1971. The Committee had agreed to draw up a document containing factual information on tariffs, quantitative restrictions, variable levies and other special charges as well as information on health and sanitary regulations. The Committee had also assembled a wide spectrum of suggestions or proposals as to how the principal problems that arise in the field of agricultural products might be dealt with.

The Council adopted the Report and decided that the Committee should continue its task as set out in its terms of reference; that delegations should be invited to put before the Committee, as soon as possible, further suggestions as to ways in which the principal problems facing trade in agricultural products might be dealt with, to make more specific the suggestions that had been made when this had not already been done and that the Committee should carry out analyses of the suggestions as it considered appropriate; and that, without prejudice to the right

of any contracting party to invoke established GATT consultation procedures, the Committee should pursue, at any time, such opportunities as might arise for the settlement of particular trade problems.

At its meeting on 9 November 1971 the Council received a further report of the Committee (L/3600) in which the Committee noted that no mutually acceptable solutions had as yet been found. The Council approved the report and agreed, in conformity with the Committee's recommendation, that the Committee's previous report (L/3472) as well as the present report be submitted to the CONTRACTING PARTIES for consideration at their twenty-seventh session.

5. Committee on Trade and Development (C/M/68)

In April 1971, the Council received a report of the Committee on Trade and Development on its activities since the twenty-sixth session (L/3487).

The Committee had been impressed by many statements of developing countries to the effect that urgent and wide-ranging action was necessary to increase their foreign trade earnings. They had recalled the Conclusions adopted at the twenty-sixth session of the CONTRACTING PARTIES and had expressed frustration at the lack of adequate action in GATT. They had viewed with concern the disquieting developments on the international trade scene. It had been their view that if it was not possible to enter into new negotiations on a world-wide basis at the moment, serious efforts should be made to initiate positive action in favour of developing countries, especially in regard to the most urgent problems, already identified in GATT. Against this background the Committee had established the Group of Three which had been requested to present proposals for concrete action that might be taken to deal with trade problems of developing countries.

The Council took note of the report.

6. Border tax adjustments (C/M/65)

The final report of the Working Party on Border Tax Adjustments (L/3464) was presented to the Council at its December 1970 meeting. The Council in adopting the report, agreed, as recommended by the Working Party, to the introduction, on a provisional basis, of a notification procedure on changes in tax adjustments introduced by contracting parties and to the establishment of a consultation procedure, whereby, at the request of a contracting party, a multilateral consultation could take place on any changes in tax adjustments. The Council invited the Director-General to consider, at convenient intervals, whether a review of notified changes was called for and, after an adequate period of operation, whether the provisional notification procedure should be continued, modified or discontinued. The Working Party had concluded its work but could be reconvened in due course, as the appropriate forum for holding the consultations.

7. Anti-dumping practices

(a) Committee on Anti-Dumping Practices (C/M/68, 74)

At its April 1971 meeting, the Council adopted the report of the Committee on Anti-Dumping Practices for 1970 (L/3521).

At its November 1971 meeting the Council received the third report of the Committee on Anti-Dumping Practices, covering the period from January to September 1971 (L/3612). One representative expressed concern about the manner in which some parties to the Agreement implemented certain provisions. The Council adopted the report.

(b) Acceptance of the Anti-Dumping Code (C/M/63, 64)

The CONTRACTING PARTIES had at their twenty-sixth session directed the Council to make arrangements for a wide and early acceptance of the Agreement on the Implementation of Article VI. At its July 1970 meeting, the Council held an initial exchange of views on the adherence of developing countries to the Agreement. In September 1970 the Council established a Working Party to examine the special problems of developing countries in connexion with the Agreement. The Working Party, which held its first meeting in September 1971, is at present studying certain proposals to facilitate adherence of developing countries.

8. Import restrictions (C/M/63, 68, 70)

The Council received the report of the Joint Working Group on Import Restrictions (L/3391 and Add.1) in July 1970. The Group had examined systematically the restrictions still maintained by the eighteen countries consulted with a view to assessing prospects for removal or relaxation in each case.

The Council having before it the complete report of the Group (L/3391/Rev.1), continued its consideration at its meeting of 21 April 1971. There was wide support for the suggestion that the information assembled by the Joint Working Group be kept up to date, that contracting parties be invited to notify annually any changes to the restrictions contained in the document and that the CONTRACTING PARTIES review periodically quantitative restrictions notified.

At its June 1971 meeting the Council agreed that the Joint Working Group should continue with its work; that the data assembled should be kept up to date and that contracting parties should be invited to notify annually, on 30 September, changes which should be made concerning the restrictions contained in the consolidated document; that the Group's future work should be subject to the same understandings as those specified in the Council's report when the Group was originally established, and that the Group would carry out its review annually or every second year.

9. Balance-of-Payments Import Restrictions (C/M/62, 63, 64, 65, 66, 68)

In 1970 at meetings held in March, June, July and October, the Committee on Balance of Payments carried out consultations with ten countries. The reports on these consultations were submitted to the Council in the following documents:

Egypt, Arab Republic of	(BOP/R/49)	Israel	(BOP/R/43)
Finland	(BOP/R/44)	Peru	(BOP/R/46)
Greece	(BOP/R/50)	Spain	(BOP/R/47)
Iceland	(BOP/R/38)	Uruguay	(BOP/R/45)
Indonesia	(BOP/R/51)	Yugoslavia	(BOP/R/48)

In the case of Peru no full consultation was carried out (BOP/R/46) because of the natural disaster which had struck that country in June 1970. The Committee had agreed that there was no point in examining the restrictions as they had been applied prior to the earthquake but that the Council could consider such action as appropriate in terms of the relevant GATT provisions when informed of any new import restrictive measures. In the case of Indonesia the Committee had conducted an "expanded consultation" as agreed at the twenty-fourth session, and particular attention was given to the possibilities for alleviating and correcting the trade and development problems through measures that could be taken by other contracting parties.

The Council adopted the reports and also approved a programme for consultations in 1971.

In 1971, at meetings held in March and June, the Committee carried out consultations with seven countries. The reports on these consultations were submitted to the Council in the following documents:

Brazil	(BOP/R/57)	Israel	(BOP/R/54)
Ceylon	(BOP/R/58)	Korea	(BOP/R/56)
Ghana	(BOP/R/53)	New Zealand	(BOP/R/52)
Iceland	(BOP/R/55)		

The Council adopted these reports.

10. Argentina - Import restrictions (C/M/73, 74)

At its meeting of October 1971 the representative of Argentina informed the Council that the Argentine Government, in order to avoid a further aggravation of the economic situation of the country, had felt obliged to take certain measures regarding imports, including a general suspension of imports until 31 October 1971. At the Council meeting on 9 November 1971 the representative of Argentina announced that, as envisaged, the general suspension had been lifted on the date indicated. Concerning the remaining measures established by the Government of Argentina, the Council decided to refer the matter to the Committee on Balance-of-Payments Import Restrictions for examination at an early date.

11. Japan - Import liberalization programme (C/M/64)

At its September 1970 meeting, the Council was informed by the representative of Japan of a decision taken to accelerate the elimination of residual restrictions envisaged by Japan for 1971. As a result of this decision by the end of September 1971 less than forty items would remain restricted.

12. Nigeria - Import liberalization Programme (C/M/68)

At its April 1971 meeting, the representative of Nigeria informed the Council that his Government had recently taken wide-ranging measures to liberalize imports, so that with effect from 1 April 1971 most imports had been freed from licensing requirements. Further details had been notified to the secretariat.

12a. Denmark - Temporary import surcharge (C/M/74)

At its meeting on 9 November 1971 the Council considered the Danish temporary import surcharge introduced on 21 October 1971 (L/3602 and Add.1). After an initial discussion on the matter, the Council established a Working Party to examine the surcharge at a meeting as soon as possible when the necessary determination by the International Monetary Fund was available.

13. Israel - Temporary import surcharge (C/M/64, 68)

At its meeting in September 1970 the Council was given detailed information by the representative of Israel on the imposition of a temporary import surcharge. The surcharge was part of a group of emergency measures designed to cut consumption and stem the rapid deterioration in the balance of payments. The rate of the surcharge was 20 per cent and affected nearly all imports. The measure would probably be extended until March 1972.

At the request of the Council, the Balance-of-Payments Committee examined the temporary import surcharge during its consultation with Israel in March 1971. The results of the consultation with Israel are contained in the Committee's report on Israel (BOP/R/54). At its meeting in April 1971, the Council took note of the situation and agreed to keep it under review. It invited Israel to notify the CONTRACTING PARTIES in advance of any change in the level or duration of application of the import surcharge. It urged Israel to eliminate the measure as early as circumstances permitted and in any case not later than 31 March 1972. The Council further agreed that the use of this surcharge by Israel should be subject to all the conditions and criteria embodied in the appropriate provisions of the General Agreement governing the use of quantitative restrictions for balance-of-payments reasons. It noted that this would in no way preclude appropriate action by any contracting party which considered that any benefit accruing to it under Article II was nullified or impaired as a consequence of the measure. The dispositions made by the Council were not to be regarded as a precedent; they had been formulated after careful consideration of the particular circumstances and were not intended for application in other instances in the future.

14. United States - Temporary import surcharge (C/M/71, 72)

At a special meeting on 24-25 August 1971, the Council considered the United States temporary import surcharge introduced on 16 August 1971, and certain other measures of a non-monetary nature (L/3567). After an extended discussion on the matter, the Council established a Working Party to examine the surcharge and to exchange views on other measures in the United States programme of a non-monetary nature which had a direct impact on international trade.

The report of the Working Party (L/3573) was presented to the Council at its meeting in September 1971. The Council adopted the report, including its conclusions which read as follows:

The Working Party took note of the findings of the IMF and recognized that the United States had found itself in a serious balance-of-payments situation which required urgent action. While noting the contrary views of the United States, the other members of the Working Party (one member reserving his position concerning the inappropriateness of the surcharge) considered that the surcharge, as a trade restrictive measure, was inappropriate given the nature of the United States balance-of-payments situation and the undue burden of adjustment placed upon the import account with consequent serious effects on the trade of other contracting parties.

In the spirit of Part IV of GATT, and in view of the possibilities opened up by the newly adopted GSP, the Working Party explored with the United States the feasibility of exempting more products exported by developing countries from the surcharge. The Working Party fully understood the keen desire and the urgent need of developing countries to expand their exports as well as the importance of the United States market to them, and generally agreed that in spite of the exemption of many raw materials and primary products normally exported by them, the import surcharge significantly affected the export interest of developing countries. The Working Party wished to stress this as an a fortiori reason why the measure should be eliminated within a short time. In the meantime, the United States should keep the situation under constant review so as not to overlook any possible opportunity of adding to the exemptions list products of particular export interest to developing countries.

The United States, taking into account the findings of the IMF, considered itself entitled under Article XII to apply quantitative restrictions to safeguard its external financial position and balance of payments but had chosen instead to apply surcharges, which were less damaging to world trade. It noted that while a number of other contracting parties had taken similar action there was no uniform precedent in the GATT for dealing with situations of this kind. The other members of the Working Party concentrated their attention on the measures which the United States had actually adopted in this respect, and noted that the surcharge, to the extent that it raised the incidence of customs charges beyond the maximum rates bound under Article II was not compatible with the provisions of the General Agreement.

The Working Party noted that the surcharge, if not removed within a short time, could not but have far-reaching effects on the world economy and international trade, particularly having regard to the inhibitive effect it would have on international co-operation necessary for the continuation of the liberalizing trade policies that have been pursued since the inception of GATT.

The Working Party noted the statement by the United States confirming that the import surcharge would be temporary and, in the light of the above, urged that it be removed within a short time.

It was understood that this examination in no way prejudiced the rights of contracting parties under the General Agreement.

The Council decided to keep the matter under close review and, for that reason, to keep it on its agenda. The Council agreed that the Working Party would be reconvened in the light of developments. The Council also took note of the note on the exchange of views on the Job Development Tax Credit (L/3575) and, with a United States objection, a note on the Domestic International Sales Corporation (L/3574).

15. Yugoslavia - Special import charge (C/M/64, 65, 73)

At its meeting in September 1970, the Council was given detailed information by the representative of Yugoslavia on the imposition of a special import charge. The measure had been introduced to alleviate balance-of-payments difficulties. It consisted of a 5 per cent tax on imports, was temporary and was to be terminated on 30 June 1971.

At the request of the Council the Balance-of-Payments Committee examined the special import charge during its regular consultation with Yugoslavia in October 1970. The results of the examination are contained in the Committee's report on Yugoslavia (BOP/R/48), which was adopted by the Council at its December 1970 meeting.

At its meeting of October 1971 the Council was informed by the representative of Yugoslavia that the special import charge which had earlier been reduced from 5 to 2 per cent had been raised to 6 per cent and the duration had been extended to 31 December 1971. The Council took note of the statement and welcomed the intention of Yugoslavia to remove the surcharge by 31 December 1971.

16. Israel - Import deposit scheme (C/M/62)

In accordance with a Decision of the Council taken at its January 1970 meeting (C/M/60), the Committee on Balance-of-Payments Import Restrictions examined the import deposit scheme introduced by Israel in January 1970. The examination was carried out in March 1970 in the framework of the regular consultation on balance-of-payments import restrictions. The results of the examination are contained in the Balance-of-Payments Committee report on Israel (BOP/R/43) which was adopted by the Council at its April 1970 meeting.

17. Spain - Import deposit scheme (C/M/64)

In accordance with a decision of the Council taken at its January 1970 meeting, the Committee on Balance-of-Payments Import Restrictions, while conducting consultations with Spain on the import restrictions maintained by Spain, also examined the scheme of prior import deposits introduced by Spain in December 1969. The results of the examination are contained in the Balance-of-Payments Committee report on Spain (BOP/R/47), which was adopted by the Council at its September 1970 meeting. In July 1971 the Spanish Government advised the CONTRACTING PARTIES that the measures had been eliminated with effect from 1 July 1971 (L/3549).

18. United Kingdom - Import deposit scheme (C/M/64)

At its September 1970 meeting the Council was informed by the representative of the United Kingdom that the rate of deposit required under the Import Deposit Scheme had been reduced from 30 to 20 per cent with effect from 1 September 1970 and that the Scheme would be terminated on 4 December 1970.

After termination of the Scheme on 4 December 1970 the Working Party circulated a final report (L/3526).

19. EEC emergency action on table apples (C/M/62, 63)

The European Communities informed the CONTRACTING PARTIES of the introduction of certain emergency measures regarding table apples for the period of 1 April to 30 June 1970 (L/3385). At the request of one contracting party, the measures were discussed in the Council at its April 1970 meeting. The Council agreed that consultations should be held expeditiously between the EEC and countries having a trade interest in the matter. At its meeting in July 1970, the Council was informed by the contracting party requesting the discussion of the matter that consultations had been held, but that their outcome had not, for his government, constituted a satisfactory adjustment of the matter in terms of Article XXIII; his government nevertheless, had decided in the light of assurances received during the consultations, not to pursue action. As originally envisaged, the measure had been abolished on 30 June 1970. (L/3385/Add.1)

20. Association between the European Economic Community and African and Malagasy States (C/M/65)

The Working Party established to examine the provisions of the Convention of Association between the European Economic Community and the African and Malagasy States submitted its report (L/3465 and Corr.1), to the Council in December 1970. The Council discussed the issues raised by the Convention and certain divergencies of view already reflected in the Working Party's report arose again in the Council. The Council adopted the report.

21. Association between the European Economic Community and Greece (C/M/74)

The Council noted in November 1971 that in the period under review no information on developments under the Agreement of Association had been received.

22. Association between the European Economic Community and Malta (C/M/68, 74)

The European Communities and the Government of Malta informed the CONTRACTING PARTIES of the text of the Agreement establishing an Association between the European Economic Community and Malta (L/3512). At its meeting in April 1971 the Council established a Working Party for the examination of the Agreement in the light of the relevant provisions of the General Agreement. In November 1971

The Council noted that the Working Party, which is still awaiting certain information, had not been able to meet before the twenty-seventh session.

23. Association between the European Economic Community and certain non-European countries and territories (C/M/66, 74)

The CONTRACTING PARTIES were informed of the text of a Decision of the Council of the European Communities dated 29 September 1970 which defined the terms of the Association of certain non-European countries and territories with the EEC for a further period of five years (L/3467). The Council, at its meeting of 2 February 1971, appointed a Working Party to examine the provisions of the Decision of the Council of the European Communities.

At its November 1971 meeting, the Council considered the report of the Working Party (L/3611). The Working Party had not been able to reach agreed conclusions and had, therefore, confined itself to submitting the different views expressed. The Council adopted the report.

24. Association between the European Economic Community and Tanzania, Uganda and Kenya (C/M/64, 74)

The member States of the European Communities and the Governments of Tanzania, Uganda and Kenya informed the CONTRACTING PARTIES of an Agreement establishing an Association between the EEC and the three countries (L/3369). At its meeting in September 1970, the Council established a Working Party to examine the Agreement in the light of the relevant provisions of the GATT. The Council noted that the Working Party, which is still awaiting replies to the questions circulated to the parties in November 1970, had not been able to meet before the twenty-seventh session.

25. Agreements of Association between the European Economic Community and Tunisia and Morocco (C/M/62, 64)

The Working Party established to examine the two Agreements of Association between the EEC and Tunisia and Morocco submitted its report (L/3379) to the Council in April 1970. The Council discussed in some detail the issues raised by these Associations and certain divergencies of view, already reflected in the Working Party's report, arose again in the Council. On the one hand, the parties to the Agreement, supported by a number of delegations, maintained that the Agreements were in accordance with Article XXIV. On the other hand, many delegations felt that the Agreements did not meet the provisions of Article XXIV. The Council reverted to the matter at its September 1970 meeting. It was not possible to achieve agreed conclusions but it was decided that on the request of any delegation the matter would be placed again on the agenda of a future Council meeting. In the meantime individual contracting parties fully preserved their rights under the relevant provisions of the General Agreement.

26. Association between the European Economic Community and Turkey (C/M/73)

The European Communities and the Government of Turkey informed the CONTRACTING PARTIES of the texts of the Additional Protocol to the Agreement establishing an Association between the European Economic Community and Turkey (L/3554) and of an Interim Agreement, concluded pending the entry into force of the Additional Protocol. The Council on 6 October 1971 established a Working Party for the examination of these instruments in the light of the relevant provisions of the General Agreement.

27. Agreement between the European Economic Community and Israel (C/M/64, 65, 73)

The European Communities and the Government of Israel informed the CONTRACTING PARTIES of the text of the Agreement between the EEC and Israel of 29 June 1970 (L/3428). At its meetings of September and December 1970, the Council established a Working Party to examine the provisions of the Agreement in the light of the relevant provisions of the General Agreement. The report of the Working Party (L/3581) was submitted to the Council in October 1971. Some representatives stated that the Agreement did not comply with the Article XXIV criteria. Some other representatives on the other hand considered that the Agreement was in conformity with Article XXIV. Other representatives took an intermediate position. While it should be recognized that the Agreement at present was not fully consistent with the provisions of Article XXIV, these representatives could provisionally accept the Agreement provided a procedure was established for examining continuously that the Agreement developed in conformity with its stated objectives. One representative stated his government's intention to request consultations with the parties to the Agreement under the provisions of paragraph 1 of Article XXIII. He also stated his government's intention to propose at the twenty seventh session to initiate a major examination of the extent to which preferential and special trading arrangements had eroded the most-favoured-nation rule.

The Council adopted the report of the Working Party, noting the differences of view expressed on the legal issues involved and the willingness of the parties to the Agreement to provide regularly information on its operation.

28. Agreement between the European Economic Community and Spain (C/M/64, 65, 73)

The European Communities and the Government of Spain informed the CONTRACTING PARTIES of the text of the Agreement between the EEC and Spain of 29 June 1970 (L/3427 and Corr.1). At its meetings of September and December 1970 the Council established a Working Party to examine the provisions of the Agreement in the light of the relevant provisions of the General Agreement. The report of the Working Party (L/3579) was submitted to the Council in October 1971. Some representatives stated that the Agreement did not comply with the Article XXIV criteria. Some other representatives on the other hand considered that the Agreement was in conformity with Article XXIV. Other representatives took an intermediate position. While it should be recognized that the Agreement at present was not fully consistent with the provisions of Article XXIV, these representatives could provisionally accept the Agreement provided a procedure was established for examining continuously

that the Agreement developed in conformity with its stated objectives. One representative stated his government's intention to request consultations with the parties to the Agreement under the provisions of paragraph 1 of Article XXIII. He also stated his government's intention to propose at the twenty-seventh session to initiate a major examination of the extent to which preferential and special trading arrangements had eroded the most-favoured-nation rule.

The Council adopted the report of the Working Party, noting the differences of view expressed on the legal issues involved and the willingness of the parties to the Agreement to provide regularly information on its operation.

29. European Free Trade Association and the Finland EFTA Association (C/M/64, 68)

At its July 1970 meeting, the Council received a report by the representative of Gabon on recent developments in the Central African Economic and Customs Union (L/3344/Rev.1). 35. New Zealand/Australia Free Trade Agreement (C/M/68)

At its meeting in April 1971 the Council received a third report presented by Australia and New Zealand, on action taken up to the end of 1970 under the New Zealand/Australia Free Trade Agreement (L/3502). One representative pointed out that, in his government's view, New Zealand's licensing system applied in the context of the Agreement was discriminatory, and proposed that the Committee on Balance-of-Payments Import Restrictions discuss this matter at its consultation with New Zealand in 1972. The Council took note of the report.

36. United Kingdom/Ireland Free Trade Agreement (C/M/68)

At its meeting in April 1971 the Council took note of the fourth annual report on developments under the Anglo-Irish Free Trade Area Agreement submitted by the member States (L/3504).

The Decision of 20 February 1970 requires the States participating in the Trade Arrangements between Egypt, India and Yugoslavia to report on the operation of the Agreement, in order to enable the CONTRACTING PARTIES to carry out an annual review of the Decision. The report on the second year of the operation of the Agreement was presented to the Council at its meeting in April 1971. The Council took note of the report. The Decision will be reviewed again in 1972.

38. Generalized System of Preferences (C/M/69)

At their twenty-fifth and twenty-sixth sessions the CONTRACTING PARTIES expressed their readiness to take appropriate action with regard to a general, non-discriminatory scheme of preferences in favour of developing countries, and directed the Council to consider the matter at the appropriate time. Accordingly, at its meeting in May 1971, the Council considered a communication submitted by the prospective preference-giving contracting parties, which contained a formal application to the CONTRACTING PARTIES for a waiver in accordance with Article XXV:5 from the obligations under Article I of the General Agreement, as well as a text of a draft waiver (C/W/178).

Many representatives expressed support for the draft waiver as proposed by the preference-giving contracting parties. Other contracting parties objected to the proposal and stated that they could not vote in favour of the draft waiver. In their view, the proposed waiver lacked precision with regard to its operation and its scope. It gave donor countries complete freedom in determining the list of beneficiaries to whom they would extend the scheme, which was contrary to the principle of non-discrimination between beneficiary countries and the principle of self-election. Also objectionable, in the view of some contracting parties, was the fact that the proposed waiver did not specify the timing and modalities of any review and that it left the issue of reverse preferences unresolved. Other representatives, while being concerned over some of the features of the proposal, expressed awareness of the need to implement the Generalized System of Preferences without any delay and supported, therefore, the waiver as proposed.

The Council agreed to submit the text of the draft decision to the CONTRACTING PARTIES. The Decision was adopted by postal ballot (L/3545).

39. Brazil - Renegotiation of schedule (C/M/66, 73, 74)

By Decision of 27 February 1967 the CONTRACTING PARTIES suspended the application of the provisions of Article II of the General Agreement to the extent necessary to enable the Government of Brazil to apply those rates of duty provided in its new Customs Tariff which exceeded those bound in Schedule III, subject, *inter alia*, to the condition of conducting negotiations pursuant to Article XXVIII. The time-limit for terminating such negotiations had been extended by Decision of 20 February 1970 until the end of the twenty-seventh session.

On 2 February 1971 the representative of Brazil informed the Council that negotiations had been concluded with all but three of the interested contracting parties. In October 1971 the representative of Brazil reported to the Council that it did not seem possible that agreement with the remaining contracting parties could be reached within a short time.

At its meeting in November 1971 the Council considered a request for a further extension of the Decision of 27 February 1967.

The Council agreed to recommend the further extension of the time-limit until 31 December 1972. The Council approved the text of a draft Decision (reproduced in Annex I) and recommended its adoption by the CONTRACTING PARTIES by means of a vote taken at the twenty-seventh session.

40. Ceylon - Increase in bound duties (C/M/64, 65, 66, 68)

Under a Decision of 25 November 1968 Ceylon was authorized, pending completion of its tariff reform, to maintain in effect increased duties and margins of preference on certain items specified in the Decision.

At its meeting in December 1970 the Council was informed by the representative of Ceylon that his Government had completed the tariff reform and that the new tariff had been implemented on 26 October 1971. As a result, duties on certain items specified in the Decision had been reduced and were again consistent with the provisions of Article II, while duties on other items had been increased above the level specified in the Ceylon Schedule. Since a simple extension of the waiver would not meet the changed situation, the Council agreed to revert to the matter at its next meeting.

At the meeting of the Council on 2 February 1971 the representative of Ceylon clarified the intent of a new waiver requested, viz to permit Ceylon to complete the renegotiations under Article XXVIII on the same basis as had been envisaged under the Decision of 25 November 1968.

At its Council meeting in April 1971 the Council approved the text of a draft decision which would enable the Government of Ceylon to conclude the renegotiations required before 31 December 1971. The Decision was adopted by postal ballot (L/3530).

41. Greece - Preferential tariff quotas to the USSR (C/M/62, 63, 65)

At the request of one contracting party, and on the basis of information supplied by the delegation of Greece (L/3387), the Council discussed at its April 1970 meeting the question of a Special Protocol between Greece and the USSR which provided for special tariff treatment until 31 December 1971 of certain products imported from the Soviet Union within specified quota limits. The Council urged the Greek Government to reflect on the views expressed in the discussion and to consider appropriate ways for bringing the arrangement into conformity with the rules of the General Agreement, and agreed to revert to the matter at its next meeting.

At its meeting of 15 July 1970 the Council received a request by the Government of Greece for a waiver from the provisions of Article I, so as to enable Greece to maintain reduced customs duties in respect of the USSR as specified in the Special Protocol. The Council established a Working Party to examine the request.

The Working Party presented its report to the Council at its December 1970 meeting (L/3447). A large majority of the members of the Working Party had not recommended that a waiver be granted as requested by the Government of Greece. The Council adopted the report and it understood that the Greek Government would search for appropriate solutions in the light of the report and of the discussions which had taken place in the Council.

42. Jamaica - Increase in margins of preference (C/M/64, 66)

At its meeting in September 1970 the Council considered a question submitted by the United States delegation concerning certain increases in margins of preference by Jamaica (L/3440), which in the United States view were inconsistent with the provisions of Article I:4 of the General Agreement. The Council established a Panel to investigate the matter in accordance with the provisions of paragraph 2 of Article XXIII.

At its meeting on 2 February 1971, the Council considered a report by the Panel (L/3485 and Corr.1). The Council approved a recommendation by the Panel that the CONTRACTING PARTIES consider taking a decision in accordance with Article XXV:5 to change, in respect of Jamaica, the base date referred to in Article I:4 from 10 April 1947 to 1 August 1962, and adopted the report. The Decision was adopted by postal ballot (L/3503).

43. Turkey - Stamp duty (C/M/66)

At its meeting on 2 February 1971, the Council received an annual report by the Government of Turkey on the application of the stamp duty. 44. United States - Agricultural import restrictions (C/M/62, 70)

In January 1970 the Council established a Working Party to carry out the annual review on action taken by the United States under the Decision of 5 March 1955 and to examine the fourteenth annual report by the United States. The Council adopted the report and approved the text of a draft decision to extend the waiver until 30 June 1971. The Decision was adopted by postal ballot (L/3435).

A request for a further extension (L/3546) was considered by the Council at its June 1971 meeting. The Council approved the text of the draft decision to extend the waiver until the end of the twenty-seventh session, with the understanding that the Committee on Balance-of-Payments Import Restrictions would consult with Uruguay on the balance-of-payments aspects of the import surcharge measure and examine the effects of the revision of the Uruguayan Surcharge System on the Uruguayan obligations under Article II of the General Agreement. The Decision was adopted by postal ballot (L/3561).

At its meeting in November 1971 the Council considered the report of the Committee on Balance-of-Payments Import Restrictions on its consultations with Uruguay (L/3618). The Council agreed that the waiver enabling Uruguay to maintain surcharges on duties bound in the Uruguayan schedule be extended for a limited period of time to enable the Committee to fulfil its terms of reference on the basis of an examination of information requested from the Government of Uruguay. The Council approved the text of a draft Decision (reproduced in Annex II) and recommended its adoption by the CONTRACTING PARTIES by means of a vote taken at the twenty-seventh session.

47. Reports under waivers

The Council took note of the reports submitted by the governments concerned in accordance with the provisions of the following waivers granted by the CONTRACTING PARTIES.

At its September 1970 meeting, the Council granted the authority requested.

The Council approved the terms of the Draft Protocol and the text of the Draft Decision, annexed to the Working Party's report. The Council also approved the form and content of the notification on action taken by contracting parties to remove remaining restrictions on imports from Poland.

In July 1970 the Government of Poland informed the CONTRACTING PARTIES of its intention to enter into negotiations for the modification of the commitments undertaken by Poland. The Council, at its September 1970 meeting, agreed that these negotiations should be carried out by the Working Party already established.

The report of the Working Party (L/3475) was presented to the Council at its meeting on 2 February 1971 and adopted. Since no date for the termination of the transitional period was established, this question would be re-examined at the next annual consultation. Considering that, although agreement has been reached in the negotiations with the majority of the countries concerned, it will not be possible to conclude all of them by the date specified;

The CONTRACTING PARTIES, acting pursuant to the provisions of paragraph 5 of Article XXV of the General Agreement and in accordance with the procedures adopted by them on 1 November 1956,

Decide that the time-limit provided for in paragraph 3 of the Decision of 27 February 1967 shall be extended until 31 December 1972.

Annex II

URUGUAYAN IMPORT SURCHARGES

Extension of the Decision of 8 May 1961

Draft Decision

Considering that the CONTRACTING PARTIES by Decision of 8 May 1961¹ waived, subject to specified terms and conditions, the provisions of paragraph 1 of Article II of the General Agreement to the extent necessary to allow the Government of Uruguay to apply the import surcharges provided for in its Decree of 29 September 1960, as a temporary measure taken as part of and in conjunction with its stabilization and development programme, to those items specified in Schedule XXXI enumerated in the table annexed to that Decision, on the understanding that the surcharges be levied in a manner consistent with the provisions of Article I of the General Agreement;

Considering that the above-mentioned Decision was successively extended by Decisions of 20 July 1963, 31 January 1964 and 18 March 1964; extended and amended by Decision of 23 March 1965 and further extended by Decisions of 14 December 1965, 17 November 1967, 26 July 1968, 20 February 1970, 28 August 1970², and 10 August 1971³ until the end of the twenty-seventh session of the CONTRACTING PARTIES;

Considering that the Government of Uruguay has requested a further extension of the above-mentioned Decision on the grounds of continuing balance-of-payments difficulties;

Having carried out a preliminary examination of the surcharges applied by Uruguay for balance-of-payments reasons; but noting that the information available did not allow a detailed examination as required by the Committee's terms of reference;

Having consulted fully with the International Monetary Fund and taken into account the assessment provided by the Fund,

The CONTRACTING PARTIES, acting pursuant to the provisions of paragraph 5 of Article XXV of the General Agreement and in accordance with the procedures adopted by them on 1 November 1956,

Decide that the Government of Uruguay be authorized to maintain the surcharges at present applied by it, subject to the relevant terms and conditions of the Decision of 8 May 1961 and the successive decisions mentioned above until 31 May 1972, it being understood that the Government of Uruguay will submit the information requested to enable the Committee to fulfill its terms of reference before the expiry of this period.
