## BOVINE MEAT

### Australia -- Request for Consultations Under Article XXII:1

The following communication has been received from the Australian mission.

During the meeting of the GATT Council of 19 July 1974, the representative of Australia informed the Council that the Australian Government was reviewing the action taken by the European Communities on bovine meat from the viewpoint of, inter alia, its rights under GATT.

Australia wishes to take this opportunity to inform the Director-General that it is seeking consultations with the Commission of the European Communities under Article XXII:1 of the GATT regarding emergency action by the European Communities on bovine meat.
