TARIFF INFORMATION AVAILABLE IN THE SECRETARIAT

The secretariat receives, in the course of its normal work, numerous requests for information on existing tariff rates for particular products in different countries.

Annexed to this paper is a list of tariffs and their latest modifications available in the secretariat. The information, as noted here, is drawn mainly from three sources: national editions of the customs tariffs, the publications of the International Customs Tariff Bureau in Brussels and the Deutsches Handels-Archiv (published in Germany).

Unfortunately, the secretariat is not always kept informed by contracting parties of changes in their tariffs. In order to enable it to answer accurately inquiries relating to customs duties, the secretariat would appreciate receiving from governments, on a regular basis, information on modifications in their tariffs.
