REPORT SUBMITTED BY THE DELEGATIONS OF THE ARAB REPUBLIC OF EGYPT, INDIA AND YUGOSLAVIA ON THE OPERATION OF THE TRADE EXPANSION AND ECONOMIC CO-OPERATION AGREEMENT

1973-1974

1. In pursuance of paragraph 1(c) of the Decision adopted by the CONTRACTING PARTIES in February 1970, the delegations of the Arab Republic of Egypt, India and Yugoslavia submit the following report on the sixth year of operation of the Trade Expansion and Economic Co-operation Agreement.
2. The Agreement came into force on 1 April 1968. As provided for in the Agreement each of the three participating States accords special tariff concessions to trade in products specified in the Common List originating in the other two. The Common List initially consisted of seventy-seven tariff items. Under a Protocol signed in September 1969, the participating States agreed to add fifty-seven additional items to the Common List.
3. In March 1973, the participating States, while deciding to extend the period of the Agreement by five years starting April 1973, decided to expand the product coverage of the Agreement by including twenty-six items in the Common List of products on which tariff concessions are granted to one another.
4. In November 1973, the CONTRACTING PARTIES decided that notwithstanding the provisions of Article I:1, the participating States could continue to implement the Agreement as amended by the Protocol and with the inclusion of the additional twenty-six items mentioned in document L/3933, subject to the relevant terms and conditions of the Decision of 20 February 1970, until 31 March 1978.
5. The statistical data on imports of items in the Common List for the years 1971/1972, 1972/1973 and 1973/1974 are annexed to the present report.

The participating States hope that in next year's report they will be able to supply trade information concerning the additional twenty-six items.
6. Egypt's total imports of the items in the Common List from India and Yugoslavia for the years 1971/1972, 1972/1973 and 1973/1974 were:

^{1/} It has not been possible to allocate trade in regard to some of the BTN items which figure partly in the list of seventy-seven items and partly in the list of fifty-seven items. The totals for Common List items have been arrived at however after making the necessary adjustments to avoid double calculation.

9. The Agreement has continued to have a modest impact in creating new and additional opportunities for trade in non-traditional products between the three participating countries and has not caused any injury to the trade of other contracting parties.

10. In accordance with their declared intentions, the participating States will make every endeavour during the next round of trade negotiations among developing countries to multilateralize, as far as possible, trade concessions exchanged among them, through their inclusion in the Protocol Relating to Trade Negotiations among Developing Countries.
