Explanatory NotesColumn TYPE OF DUTY

- MTN-B : Base rate for the Tokyo Round (pre-Tokyo Round m.f.n. rate)
 MTN-F : Final rate (post-Tokyo Round m.f.n. rate)
 MFN 84 : M.f.n. rate in 1984
 TEMP : Temporary m.f.n. rate
 GSP : GSP rate
 GSP-F : GSP rate related to post-MTN final rate (Austria, Canada, Japan and Switzerland)
 LDC : Rate applying to least-developed countries
 LDC-F : LDC rate related to post-MTN final rate (Austria)
 FTA : Rate applying to countries signatory to free-trade area agreement, e.g. EFTA
 ZONE : Rate applying to countries signatory to inter-zone free trade agreement (e.g. between EEC and EFTA)
 PREF : Rates applicable under other preferential arrangement, e.g. ACP and Mediterranean countries for EEC

Column RATE

Ad valorem rate or ad valorem incidence of specific, mixed or compound rate is indicated with one decimal point. For example, if symbol 'S' appears in column 'NAT', the rate is ad valorem incidence of a specific rate. Ad valorem incidence is based on imports in 1980.

Column NAT = nature of duty rate (blank for ad valorem rate)

- S for specific rate (e.g. \$4.00/kg);
 C for compound rate (e.g. \$4.00/kg + 10%);
 M for mixed rate (e.g. \$4.00/kg. or 10% whichever is greater);
 O for other natures.

Column BDG = binding status (blank for ordinary binding)

- C for ceiling binding;
 P for a rate partially bound at a ceiling rate, and partially at the prevailing rate;
 U for an unbound rate.

Column LIM = limitation code for GSP (blank for no limitation)

- C for ceiling or competitive need country exclusion (US)
 "83" denotes such exclusion in the 1983 GSP year
 Q for quotas or similar limitations.

TRADE FLOW DATA

IMPORTS FROM (i) WORLD (= all sources and (ii) GSP ORIGIN (= GSP beneficiary countries) are each sub-divided by TOT (= total imports irrespective of tariff treatment), MFN (= imports entitled to m.f.n. treatment), GSP (imports covered by GSP), LDC (imports entitled to LDC preference) and FTA, ZONE, PREF (= imports entitled to free trade area or other preferential agreements). It may be noted that "imports covered by GSP" do not take into account quantitative and origin rule limitations and non-utilization of GSP and that actual imports under GSP are smaller than imports recorded as GSP.

With respect to imports from world and imports according to different tariff treatment, names of five main suppliers appear in column MAIN SUPPLIERS.

Import figures refer to the year 1980 (fiscal year 1980/81 for
