Annex II Information on Tariff and Trade Flows on selected products of actual and potential export interest to Tanzania	4

TARIFF AND TRADE FLOW DATA AT THE TARIFF LINE LEVELExplanatory Notes

This annex covers (i) m.f.n. dutiable items not covered by GSP, (ii) GSP dutiable items, and (iii) certain duty-free items. The products covered are products normally exported by Tanzania as well as products considered to be of short and medium term potential export interest. Data on tariff treatment (MFN, GSP, etc) and the corresponding trade flows in 1981 are provided.

TARIFFSColumn TYPE OF DUTY

MTN-B Base rate for the Tokyo Round (pre-Tokyo Round m.f.n.rate)
 MTN-F Final rate (post-Tokyo Round m.f.n. rate)
 MFN 81: M.f.n. rate in 1981
 GSP 1-B: GSP rate in 1982
 LDC-B Rate applying to least-developed countries in 1982
 ZONE: Rate applying to countries signatory to inter-zone trade agreement (e.g. EFTA)
 PREF: Rates applicable under other preferential arrangements, e.g. ACP and certain Mediterranean countries.

Column RATE

Ad valorem rate and ad valorem incidence of specific, mixed or compound rate is indicated with one decimal point. For example, if symbol 'S' appears in column 'NAT', the rate is ad valorem incidence of a specific rate. Ad valorem incidence is based on imports in the year recorded.

Column NAT = nature of duty rate (blank for ad valorem rate)

S for specific rate (e.g. US\$4.00/kg.);
 C for compound rate (e.g. US\$4.00/kg. + 10%);
 M for mixed rate (e.g. US\$4.00/kg. or 10% whichever is greater);
 V for variable levy or variable component;
 O for other natures

Column BDG = binding status (blank for ordinary binding)

C for ceiling binding;
 P for a rate partially bound at a ceiling rate, and partially at the prevailing rate;
 U for an unbound rate

Column LIM = limitation code for GSP (blank for no limitation)

C for individual country ceiling (for the EEC as a whole)
 Q for individual country quotas (divided between EEC member States).

TRADE FLOW DATA

IMPORTS FROM (i) WORLD (= all sources) and (ii) GSP ORIGIN (= GSP beneficiary countries) are each sub-divided by TOT (= total imports irrespective of tariff treatment), MFN (= imports entitled to m.f.n. treatment), GSP (imports covered by GSP), LDC (imports entitled to LDC preference) and FTA, ZONE, PREF (= imports entitled to free-trade area or other preferential agreements). It may be noted that "imports covered by GSP" do not take into account quantitative and origin rule limitations and non-utilization of GSP and that actual imports under GSP are smaller than imports recorded as GSP.

SHARE indicates percentage share of GSP origin in total imports

Import figures refer to the year 1981.
