ANNEX I

SOUTH AFRICA

The following notification has been received from the Permanent Mission of South Africa.

In accordance with the undertaking given by my delegation at the last meeting of the Group on Quantitative Restrictions and Other Non-Tariff Measures (see paragraph 16 of the minutes of the meeting held on 20 June 1985[1]) I have pleasure in enclosing a list of items removed from import control by South Africa with effect from 1 July 1985. To complete the record, I have added a list reflecting the items removed from import control with effect from 1 January 1984.

The product descriptions given in the lists have been abbreviated in many cases of necessity. The lists have been prepared by our delegation in Geneva from various source documents already in members' possession and may contain some errors and omissions. Delegations seeking clarification or confirmation on a particular item are most welcome to contact us.

I think the Group will agree that the 1985 list is a formidable one. As I said on 20 June, the step taken by my Government was certainly a bold one, taken in times of sluggish economic recovery, a high inflation rate, and unacceptable levels of unemployment.
