The notification requirements and trigger volumes for full notification and reduced notification are the same as in the 7th amendment of the substance directive. According to the decision the substances listed in the European inventory of existing commercial substances (EINECS) are exempted from notification. If a substance is already notified in the European Community or in EFTA-country, the notifier must send a technical dossier in summary form and copy of a written acknowledgement from competent authority to the Finnish competent authority, which is the National Board of Health.
