## TURREY - SCHEDULE OF CONCESSIONS

The following commuication, dated 10 May 1990, has been received from the Permanent Mission of Turkey.

Pursuant to the decision of the Comittee of Participating Countries of 28 September 1973 (CPC4) esta.olishing the Procedure for Rectifications of a Purely Formal Character to the Schedules of Concessions embodied in the Protocol Relating to Trade Negotiations Among Developing Countries. I have the honour to inform you that the Government of Turkey has decided to improve unilaterally the tariff concessions set out in the Turkish Schedule of Concessions under the Protocol by reducing the duty rates at an average of 11 per cent to 20 per cent with respect to certain products.

I should also like to inform you that the Turkish Schedule of Concessions annexed to the Protocol Relating to Trade Negotiations Among Developing Countries has been transposed into the Barmonized Commodity Description and Coding System.

I would therefore be grateful if this communication and the attached improved new list will be circulated to signatories of the Protocol for certification and be included in Turkey's Schedule of Concessions.

If no objections are notified to the secretariat within sixty days from the date of this document, the Schedule of Concessions reproduced in the Annex will be deemed to have been approved and will be included in a Certification of Rectifications to Schedules.
