

# GENERAL AGREEMENT ON

## TARIFFS AND TRADE

RESTRICTED

TBT/W/160

29 July 1992

Special Distribution

Committee on Technical Barriers to Trade

Original: Spanish

### COMMUNICATION FROM MEXICO

The following communication, dated 17 July 1992, has been received from Mexico with the request that it be circulated to members of the Committee.

---

My country's Government recently published a new Federal Law on Meteorology and Standardization which revokes a similar instrument dated January 1988.

The new legislation entered into force on 16 July last.

My authorities consider that it would be appropriate, for reasons of transparency, to place this new legislation at the disposal of the other signatories of the relevant Code.

Presentation of this legislation in no way prejudices its trade impact in respect of third countries, as in the case of notifications communicated to GATT by my country regarding the issue of various official regulations.

---

A copy of the legislation in question is on file in the GATT secretariat and can be consulted by interested Parties.
