ACCESSION OF BULGARIA

Communication from Bulgaria

The following communication, dated 26 August 1992, has been received from the Permanent Representative of Bulgaria in Geneva.

Please find enclosed one copy of the new Customs Tariff of Bulgaria*, adopted by Decree No. 35 of the Council of Ministers on 26 February 1992 and in force from 1 May 1992.

The nomenclature of the goods in the Tariff is classified according to the Harmonised System.

The new Tariff contains two columns. The first column is applied for the goods imported under the GSP. The GSP beneficiary countries are listed in Annex 1 of the Tariff. The second column is applied for goods imported on an MFN basis. Goods imported from the LDCs are duty free. The duty for the goods imported from those countries which do not apply MFN treatment to goods imported from Bulgaria, is twice the rate of the second column.

*The Customs Tariff of Bulgaria is available for consultation in the Office of the Special Adviser to the Director-General (Office No. 2017).
