ADMINISTRATIVE AND FINANCIAL QUESTIONS

Final Position of the 1993 Budget

1. In accordance with the CONTRACTING PARTIES' standing instructions regarding reporting on the results at the end of the financial period, the Director-General's proposals for dealing with any savings or deficits, the financial position concerning the transfer of credits between sections of the budget and any advances made from the Working Capital Fund, the Director-General submits the following information.

I. EXPENDITURE BUDGET

- 2. The CONTRACTING PARTIES appropriated Sw F 89,040,000 for the financial year 1993. Total obligations incurred in 1993 amounted to Sw F 89,850,075 and the originally approved budget was therefore exceeded by Sw F 810,075.
- 3. It will be recalled that the Budget Committee was informed in October 1993 (L/7310) that the previous forecast of over-expenditure of some Sw F 417,000, due to the appointment of a new Director-General (L/7288), had been reduced by some Sw F 230,000 as a result of some anticipated savings. This new forecast, however, did not anticipate the intensity of the workload in November and December when the final negotiations under the Uruguay Round took place. Various savings under some appropriations are able to cover over-expenditures on others, leaving, as had been foreseen, an over-expenditure under the Contribution to the International Trade Centre UNCTAD/GATT. The final amount of the over-expenditure on 31 December 1993 was Sw F 1,404,226 over the appropriation. Of this amount, Sw F 594,151 can be covered by budgetary transfers, leaving a budgetary shortfall of Sw F 810,075. Consequently, authority is hereby sought to increase the original appropriation under the Contribution to the International Trade Centre UNCTAD/GATT by Sw F 810,075 and to cover this amount by a charge to the Surplus Account. (See paragraph 24 below)
- 4. Excess expenditure of Sw F 2,273,033 over approved appropriations outlined in paragraph 12 below was partially offset by savings of Sw F 1,462,958 as detailed in paragraph 5 below.

5. Savi	ings occ	curred on the following sections:		<u>Sw F</u>
Section 1	•	Forty-ninth Session of the CONTRACTING PARTIES	S	2,600
Section 2	-	Meetings of the Council and other meetings		1,637
Section 3	_	Salaries		803,077
Section 7	-	Common Services		145,626
Section 8	-	Printing		115,545
Section 12		Trade Policy Training Courses		125,236
Section 14	-	Trade Policy Review Mechanism		268,051
Section 15	_	Replacement of system for simultaneous interpretation		
		in meeting rooms		<u>1,186</u>
			Total	1,462,958

- 6. Under <u>Sections 1 and 2</u> (Forty-ninth Session of the CONTRACTING PARTIES and Meetings of the Council and other meetings), the savings resulted mainly from a reduced requirement for freelance interpreters.
- 7. Under Section 3 (Salaries), the savings resulted mainly from the salary increases being lower than anticipated (for the General Service staff, the increase was 3.16% against 4.5%; for Professionals, the increase in Post Adjustment was less than had been anticipated) and in spite of the fact that the budget had been approved at the rate of US\$1/Sw F 1.26 while the average for the year was US\$1/Sw F 1.48. Savings also occurred as some posts were vacant and/or filled at a lower level during the year.
- 8. Under Section 7 (Common Services), there were over or under-expenditures on various subitems. The main over-expenditures were on: insurance premiums (due to the increased level of pensionable remuneration and the higher effective dollar rate), electronic data processing equipment (training costs for new word processing software), communications (unforeseen increases in local telephone call tariffs) and electricity (increases in the tariffs). These were partially off-set by savings on the alternative parking site foreseen in the budget which was not yet needed as the lease of the present parking area could be extended on a month by month basis (savings on rental and maintenance); the cost of the garden maintenance not increased and the increase in postal charges being lower than expected.
- 9. Under <u>Section 8</u> (Printing), savings were possible in the printing of the Basic Instruments and Selected Documents, the International Trade report and GATT Activities. In addition, costs for paper supplies were less than budgeted.
- 10. Under <u>Section 12</u> (Trade Policy Training Courses), savings resulted from a host government paying the travel costs associated with the study tour to its country and from one course having fewer trainees than anticipated.
- 11. Under Section 14 (Trade Policy Review Mechanism), the savings were the result of under and over-expenditures on various sub-items. Savings came from salaries for temporary assistance (vacant posts) and the Common Staff costs related to these posts; missions (by reducing the number of staff members needed for each mission) and travel on home leave. Over-expenditures occurred on installation grants (no provision had been included in the budget as no staff turnover had been foreseen) and pension fund contributions (due to the adverse effect of the effective dollar rate which was only partially compensated by the vacant posts).

12. Over-expenditure of Sw F 2,273,033 against the approved appropriations was incurred on the following sections:

				<u>Sw F</u>
Section 4	-	Common Staff Costs		494,030
Section 5	-	Missions		73,655
Section 6	-	Dispute Settlement Panels		120,932
Section 9	-	Representation and Hospitality		12,839
Section 10	-	Permanent Equipment		4,365
Section 13	-	Uruguay Round		162,986
Section 17	-	International Trade Centre UNCTAD/GATT		1,404,226
			Total	2,273,033

- 13. Under Section 4 (Common Staff Costs), over-expenditure occurred under all but two subitems, those relating to family allowances and travel on home leave. The overall excess of expenditure under this section can largely be explained by the additional costs relating to the appointment of the new Director-General, as reported to the Committee on Budget, Finance and Administration in document L/7288. In addition, the death of a staff member in 1993 and the unforeseen departure of another staff member resulted in an over-expenditure under separation payments and the dollar rate had an adverse effect on pension fund contributions.
- 14. Under <u>Section 5</u> (Missions), as the Committee on Budget, Finance and Administration was informed in July, the over-expenditure was the result of an increased demand for mission travel, in the context of the changing circumstances of the Uruguay Round.
- 15. The over-expenditure of the allocation under <u>Section 6</u> (Dispute Settlement Panels) reflected the increasing use of panels by the Contracting Parties. The number of panels established in 1993 increased by more than 40% as compared to the number established in 1992 and most of the panellists were recruited from outside Europe.
- 16. Under <u>Section 9</u> (Representation and Hospitality), the over-expenditure incurred was a result of the terms of appointment of the new Director-General as approved by the CONTRACTING PARTIES on 9 June 1993 (reference 5SS/SR/1).
- 17. Under Section 10 (Permanent Equipment), the over-expenditure was limited by the use of the allocation of Sw F 100,000 under Section 16 (Unforeseen Expenditure) as authorized by the Council (C/M/266, item 11), following a recommendation by the Committee on Budget, Finance and Administration (L/7288, paragraph 7) in the context of the appointment of the new Director-General.
- 18. Various under and over-expenditures on sub-items led to an overall excess of expenditure versus appropriation under <u>Section 13</u> (Uruguay Round). The intensive pace of the Uruguay Round trade negotiations, particularly at year-end, necessitated greater resources than had been foreseen in the budget. The most important over-expenditure related to salaries (particularly overtime at the year-end), missions (increased demand) and rental of additional space outside Centre William Rappard. The most significant savings on sub-items were under pension fund contributions (five frozen Uruguay Round posts resulted in savings, despite the adverse effects of the dollar rate), printing (Uruguay Round final documents not printed in 1993), separation payments and repatriation grants.
- 19. Under Section 17 (International Trade Centre UNCTAD/GATT), the final over-expenditure of Sw F 1,404,226 differed only marginally from that informed to the Budget Committee in October 1993 (L/7310). Sw F 871,000 of the over-expenditure is due solely to the fact that the 1993 GATT

contribution was calculated on the basis of a rate of exchange of US\$1/Sw F 1.38 while the effective weighted average exchange rate was US\$1/Sw F 1.48 in 1993. In addition, the First Performance Report for the Biennium 1992-1993 added a net amount of US\$356,600 (Sw F 533,000) to the GATT share for the biennium after closure of GATT's 1992 accounts and approval of the 1993 GATT budget.

20. Transfers between budgetary sections of Sw F 1,462,958 are necessary in order to cover excess expenditure over approved appropriations on the sections mentioned in paragraph 5 by savings on other sections as mentioned in paragraph 12. Authority is sought to increase these appropriations accordingly, as follows:

II. INCOME BUDGET

21. Amounts totalling Sw F 89,444,822 were credited as budgetary income in 1993, which exceeded the approved estimate by Sw F 404,822.

23. As shown in Annex A, at 31 December 1993, the total contributions in arrears from contracting parties amounted to Sw F 19,578,337, of which Sw F 3,755,410 represented the arrears for the year 1993.

III. SURPLUS ACCOUNT

- 24. The Surplus Account, reproduced in Annex B, shows an un encumbered balance of Sv F 556,143 at 31 December 1993, due to:
 - (a) a decrease in the provision for contributions in arrears: Sw F 2,505,341;
 - (b) assessments on contracting parties subsequent to the adoption of the 1993 scale of contributions: Sw F 289,080; and
 - (c) an excess of actual miscellaneous income over projections: Sw F 115,742.

This was offset by:

- (a) the repayment to the Working Capital Fund in respect of 1992 deficit: Sw F 934,208;
- (b) the writing-off of irrecoverable debts: Sw F 3,699;
- (c) the creation of a provision for the correction of General Service salary scales: Sw F 606,038; and
- (d) excess expenditure over appropriation: Sw F 810,075.
- 25. The Director-General intends to put proposals for the disposal of the surplus of Sw F 556,143 to the Committee on Budget, Finance and Administration at a later date for consideration and appropriate recommendation to the CONTRACTING PARTIES.

IV. EARLY PAYMENT ENCOURAGEMENT SCHLME

26. Pursuant to the Council's approval (C/M/226) of the Budget Committee's recommendation (L/6384) to introduce a system to encourage payment of contributions, interest earned on the current year's contributions is refunded to contracting parties on the basis of calculations which take account of the amount and date of payment. Annex C shows the apportionment of the amount of Sw F 851,216 earned as interest in 1993. The apportioned amounts will be deducted from the relevant contracting parties' assessed contributions for 1995.

V. WORKING CAPITAL FUND

27. In accordance with the authority contained in document L/756, paragraph 10, of 27 November 1957, which stipulates that subsequent receipts of outstanding contributions are to be credited to the Working Capital Fund to the extent necessary to reimburse the advance made, Sw F 934,208 were repaid to the Working Capital Fund in respect of the advance made in 1992. With the interest of Sw F 278,717 credited to it, the principal of the Fund at 31 December 1993 amounted to Sw F 5,892,193.
