Committee on Technical Barriers to Trade

**ENVIRONMENTAL TECHNICAL REGULATIONS AND STANDARDS NOTIFIED  
UNDER THE AGREEMENT ON TECHNICAL BARRIERS TO TRADE**

Note by the Secretariat

Addendum

1. At the second meeting of the Sub-Committee on Trade and Environment of the Preparatory Committee, on 12 July 1994, a request was made to the Secretariat to update the paper TBT/W/156 analysing statistically the TBT notifications of environmental technical regulations and standards. This Note responds to that request. It is based on notifications where the objective and rationale of the technical regulation or standard has been given as the protection of the environment. Since some of the notifications refer to more than one technical regulation or standard or more than one policy instrument, the number of policy instruments covered is larger than the number of notifications made.

2. Tables I, II, III, IV and V summarize the statistical results of the analysis.
