**ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES**

**Notification under Articles 7 and 8**

**Bilateral Agreement between Canada and Oman**

The Textiles Surveillance Body received a notification from Canada of a bilateral agreement concluded with Oman for the period 1 January 1994 to 31 December 1995.

This notification has been made pursuant to a request made by the Textiles Committee that agreements concluded with non-participants be notified.

The TSB is forwarding the text of the notification to participating countries for their information.

**MEMORANDUM OF UNDERSTANDING  
BETWEEN  
THE GOVERNMENT OF CANADA  
AND  
THE GOVERNMENT OF THE SULTANATE OF OMAN  
RELATING TO THE EXPORT  
FROM OMAN OF  
CERTAIN TEXTILE PRODUCTS  
FOR IMPORT INTO CANADA**

Introduction

1. This Memorandum of Understanding (MOU) sets out the arrangements that have been agreed upon between the Governments of Canada and Oman regarding the export of certain textile products from Oman for import into Canada.

Coverage of Restraints

2. The categories of products, if any, which are subject to restraint under this Agreement are indicated in Annex I hereto. For the purpose of classifying textile products in the appropriate category, the definitions and notes set out in Annex II hereto will apply.

Duration of Restraints

3. These restraints, if any, will apply for a period commencing on 1 January 1994 and ending on 31 December 1995.

Restraint Levels

4. Where applicable, and except as provided for in paragraphs 11 to 16 below (Swing and Carryover/Carry Forward), the Government of Oman will restrain its exports to Canada of the textile products described in Annex II for the calendar year commencing 1 January 1994 to the limits specified in column (C) of Annex I.

Administration of Restraints

5. These restraints, if any, will be implemented on the basis of the export control system operated by the Government of Oman. Exports of the textile products described in Annex II and subject to a specific quantitative limit in Annex I will be covered by an original copy of an "Export Visa" endorsed and issued by the Ministry of Commerce and Industry of Oman to the effect that the goods covered by the export visa have been debited to the applicable quantitative limit as set out in Annex I.

6. For the purpose of implementing these arrangements, the date of export from Oman will be used to determine the restraint period in which any shipments of textile products will be counted.

7. The Government of Oman will endeavour to ensure that exports to Canada of all textile products which are listed in Annex II and subject to restraint levels as per Annex I are spaced out as evenly as possible during each restraint period, due account being taken of seasonal factors and of normal channels of trade.

8. Export visas issued by the Government of Oman in respect of textile products subject to restraint levels as specified in Annex I of this Arrangement will contain the following information:

1. Country of destination;
2. Country of origin;
3. Licence number;
4. Importer's name and address;
5. Exporter's name and address;
6. Manufacturer's name and address;
7. Item number and description of product as set out in Annex I of the MOU;
8. Quantity expressed in the units as designated in Annex I of the MOU. If more than one set of measure is established, all should be indicated; where the quantity is expressed other than as designated in the MOU, the equivalent weight, units or m<sup>2</sup> should be calculated in accordance with the conversion factors set out in column (H) of Annex I;
9. F.O.B. or C.I.F. value except for non-commercial consignments;
10. Certification by the Ministry of Commerce and Industry that the quantity has been debited against the agreed restraint limit for exports to Canada.

9. In the event any quantity covered by an export visa is not shipped, the Government of Oman will notify the Government of Canada of such quantity which may be credited by the Government of Oman to the appropriate restraint limit.

10. If, on the basis of export data provided by the Government of Oman, it is determined that there is a sharp and substantial increase in the concentration of exports, other than a concentration attributable to normal seasonal factors, of particular products in any category subject to quantitative limits, the Government of Oman will enter into consultations, on request, in accordance with the provisions of paragraph 23 below with a view to remedying this situation.

#### Swing

11. Subject to the specific limitations set out in Annex I, and following notification to the appropriate Canadian officials, the Government of Oman may exceed any quantitative limit specified in Annex I up to the percentage shown in column (E) provided that an equivalent amount is deducted from any other restraint level.

12. For the purpose of implementing the swing provisions in paragraph 11, the conversion factors shown in column (H) of Annex I will apply.

#### Carryover/Carry Forward

13. Following notification to the Government of Canada of the quantities involved, portions of any quantitative limit set out in Annex I which are not used during the annual restraint period may

be carried over and added to the corresponding quantitative limit for the following annual restraint period. The restraint limit for any such restraint period will be increased within the higher percentage limit set out in column (F) of Annex I.

14. Following notification to the Government of Canada of the quantities involved, any restraint limit may be increased within the lower percentage limit set out in column (F) of Annex I by a quantity carried forward from the corresponding restraint limit for the following annual restraint period. The restraint limit for any such following restraint period will be reduced by a quantity equal to the quantity so advanced.

15. Notwithstanding the foregoing, the carryover/carry forward provisions may be used in combination only up to the higher percentage limit set out in column (F) of Annex I.

16. Further to paragraphs 11, 12 and 15 above, where applicable, the restraint limits in column (C) of Annex I may not be increased by the combined use of swing, carryover and carry forward by more than the percentage indicated in column (G) of Annex I.

17. When exercising swing, carryover or carry forward, the Government of Oman will so indicate in subsequent monthly statistical reports submitted pursuant to paragraph 22 hereunder.

#### Consultations Levels

18. During the period from 1 January 1994 to 31 December 1994, the Government of the Sultanate of Oman will require that all exports to Canada of the textile products defined in Annex II hereto and subject to a consultation level listed in Annex III hereto be covered by an original copy of an Export Visa endorsed and issued by the Ministry of Commerce and Industry of Oman and containing the information indicated in paragraph 8 above, where applicable, substituting references to Annex III for references to Annex I therein.

19. The Government of Canada authority may request consultations with the Government of Oman with a view to reaching agreement on an appropriate level of restraint for any textile products listed in Annex III, whenever, in the view of the Government of Canada, conditions in the Canadian market are such that a limitation on further trade in any such textile products may be necessary to eliminate real risk of market disruption. For those products listed in Annex III, the Government of Canada undertakes not to seek consultations until imports into Canada in the current calendar year reach at least the respective consultation levels indicated in Annex III.

20. Until such time as a mutually satisfactory conclusion has been reached, the Government of Oman undertakes, if so requested by the Government of Canada, to limit shipments from the date on which Canada requests consultations, in order to ensure that exports of the products in question to Canada in the current calendar year do not exceed 106 per cent of the consultation levels listed in Annex III.

21. The parties undertake to consult following the request for consultations referred to in paragraph 19 above, and will use their best efforts to reach a mutually satisfactory conclusion within 30 days of the request for consultations.

#### Exchange of Statistics

22. The Government of Oman will provide the Government of Canada with monthly statistical reports relating to exports of textile products described in Annex II, licensed for export to Canada and debited to the quantitative limits for each restraint period as per Annex I or the consultation

levels as per Annex III. The Government of Oman will also provide, if requested, information on its exports of textiles and textile products not covered herein.

23. In providing the monthly statistics mentioned in paragraph 22, the Government of Oman undertakes to include the following information:

- a. Item and description of goods as set out in Annex I or Annex III;
- b. The restraint limit for the restraint period or the applicable consultation level;
- c. Total quantity issued for the restraint period to date in the units designated in Annex I or in relation to the applicable consultation level;
- d. Notification of any utilization of swing, carryover or carry forward provisions and the quantities involved as provided for in paragraphs 11 to 16 above.

This information should be provided as soon as possible following the end of each month.

24. The Government of Canada will provide the Government of Oman with monthly statistical reports relating to import permits issued for imports originating in Oman of textile products listed in Annex I or Annex III. In addition, the Government of Canada will provide the Government of Oman with monthly statistics of total imports and imports from other significant suppliers in respect of textile products itemized as in Annex I or Annex III.

25. Both Governments reserve the option of requesting, should it be necessary, more specific and detailed information.

26. Both Governments will exchange such statistical data relating to exports of textile products not subject to these arrangements as may reasonably be required.

#### Re-exports

27. The Government of Canada will, so far as possible, inform the Government of Oman when imports into Canada of textile products subject to these restraints or consultation level arrangements are subsequently re-exported from Canada. Where such re-exports have originally been debited by the Government of Oman to quantitative limits or consultation levels, the Government of Oman may then credit back the quantity involved to the appropriate quantitative limits or consultation levels.

#### Consultations - General

28. Either Government has the right to request consultations with the other Government on any matter arising from the implementation or operation of these arrangements or on any matter germane to their trade in textiles and textile products. Such consultations will be governed by the following, subject also to the provisions of paragraphs 29-33 hereunder:

- Any request for consultations will be notified in writing to the other Government;
- The request for consultations will be accompanied by or followed within a reasonable period (and in any case not later than 21 days following the request) by a statement setting out the reasons and circumstances which, in the opinion of the requesting Government, justify the submission of such a request;

- The other Government will accept such a request and such consultations will be held within 30 days of the date of notification of the request;
- Both Governments will enter into consultations with a view to reaching a mutually acceptable conclusion within 30 days of the date on which actual consultations commence.

29. Notwithstanding paragraph 28, in the event that the Government of Canada believes that imports from the Sultanate of Oman of products listed in Annex II not covered by specific restraint limits or consultation levels in Annex III are, due to a real risk of market disruption, threatening to impede the orderly development of trade between the two countries, the Government of Canada may request consultations with the Government of the Sultanate of Oman with a view to easing or avoiding such market disruption. The Government of Canada will provide the Sultanate of Oman at the time of the request with detailed up-to-date information which is indicative of the market situation and in the opinion of the Government of Canada shows a real risk of market disruption.

30. The Government of the Sultanate of Oman agrees to consult with the Government of Canada within 30 days of receipt of the request for consultations. Both Governments agree to make every effort to reach agreement on a mutually satisfactory resolution of the issue within 90 days of the receipt of such request, unless this period is extended by mutual agreement.

31. During the 90-day period, the Government of the Sultanate of Oman agrees to hold its exports to Canada of the products concerned to a level no greater than 20 per cent of the amount entered into Canada, as recorded by Canadian import permit statistics, where available, during the latest 12 months prior to the month in which the request for consultations was made.

32. If no mutually satisfactory solution is reached during these consultations, the Government of Canada may establish a specific limit for the duration of these arrangements for shipments of the product concerned exported on and after the conclusion of the 90-day period referred to above. This limit, on an annualized basis, will not be less than the amount of imports which are entered into Canada during the first 12 of the most recent 14 months preceding the month in which the request for consultations was made.

33. If a specific annualized limit is established under paragraph 32 in the course of a calendar year, it will be prorated to correspond to the time period between the conclusion of the 90-day period referred to in paragraph 32 and the end of the current calendar year.

34. Any consultations held under the provisions of paragraphs 18-21 and 28-33 will be approached by both Governments in a spirit of cooperation and with a desire to reconcile the differences between them.

#### Annexes

35. The Annexes I, II and III and Notes to this Memorandum of Understanding will be considered as an integral part thereof.

	8.3*	Sweatshirts						

\*Includes all textile fibres.

Note 1: Excludes children's tailored collared shirts sizes 2 to 3X.

**ANNEX II - PREAMBLE**

**OMAN**

1. Unless otherwise indicated, gender means garments for men (M), boys (B) (sizes 8 to 18), women (W), girls (G) (sizes 7 to 16), children (C) (sizes 2 to 6X) and babies, of a body height not exceeding 86 cm (sizes 0 to 24 months).
2. A partially manufactured textile article shall be taken to include an article unfinished or incomplete (including cut or shaped fabric for making such articles), provided that, as presented, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include the article presented unassembled or disassembled.
3. Garments of indeterminate gender, including unisex garments are to be counted as of female gender.
4. Unless otherwise indicated, products covered by restraints under this arrangement are those which predominate by weight of silk, wool, cotton, other vegetable fibres, man-made fibres or other textile materials.

ANNEX II - TEXTILE CATEGORIES

OMAN

Short Description	Category	Sub Category	Long Description	Units
Cotton yarn	21		Yarn of cotton (other than sewing thread), whether or not put for retail sale.	KGM
Nylon yarn	22		Yarn of nylon or other polyamide filament (other than sewing thread), whether or not put up for retail sale, including monofilament of less than 67 decitex; yarn of nylon or other polyamide staple fibres (other than sewing thread), whether or not put up for retail sale; textile yarn, and strip and the like of heading No. 54.04 or 54.05, impregnated, coated, covered or sheathed with rubber or plastics, of high tenacity nylon or other polyamides:	KGM
- Nylon filament yarn		22.1	- Yarn of nylon or other polyamide filament (other than sewing thread), whether or not put up for retail sale, including monofilament of less than 67 decitex; textile yarn, and strip and the like of heading No. 54.04 or 54.05, impregnated, coated, covered or sheathed with rubber or plastics, of high tenacity nylon or other polyamides:	
- Nylon staple yarn		22.2	- Yarn of nylon or other polyamide staple fibres (other than sewing thread), whether or not put up for retail sale.	
Polyester yarn	23		Yarn of polyester filaments (other than sewing thread), whether or not put up for retail sale, including polyester monofilament of less than 67 decitex; yarn of polyester staple fibres (other than sewing thread and poly/cotton yarns of category 24), whether or not put up for retail sale; textile yarn, and strip and the like of heading No. 54.04 or 54.05, impregnated, coated, covered or sheathed with rubber or plastics, of high tenacity polyesters:	KGM
- Polyester filament yarn		23.1	- Yarn of polyester filaments (other than sewing thread), whether or not put up for retail sale, including polyester monofilament of less than 67 decitex; textile yarn and strip and the like of heading No. 54.04 or 54.05, impregnated, coated, covered or sheathed with rubber or plastics, of high tenacity polyesters:	
- Polyester staple yarn		23.2	- Yarn of polyester staple fibres (other than sewing thread and poly/cotton yarns of category 24), whether or not put up for retail sale.	
Poly/cotton yarn	24		Yarn of polyester staple fibres (other than sewing thread) mixed mainly or solely with cotton, whether or not put up for retail sale.	KGM
Acrylic staple yarn	25		Yarn of acrylic or modacrylic staple fibres (other than sewing thread), whether or not put up for retail sale.	KGM

Short Description	Sub Category	Long Description	Units
Artificial yarn	26	Yarn of artificial filament (other than sewing thread), whether or not put up for retail sale, including artificial monofilament of less than 67 decitex; yarns of artificial staple fibres, containing 85% or more by weight of viscose rayon staple fibres, not put up for retail sale; yarn of other artificial staple fibres (other than sewing thread), whether or not put up for retail sale; textile yarn and strip and the like of heading No. 54.04 or 54.05, impregnated, coated, covered or sheathed with rubber or plastics, of high tenacity viscose:	KGM
- Viscose yarn	26.1	- High tenacity and textured filament yarn of viscose rayon, not put up for retail sale; filament yarn of viscose rayon single, untwisted or with a twist, multiple or cabled, not put up for retail sale; yarns of artificial staple fibres, containing 85% or more by weight of viscose rayon staple fibres, not put up for retail sale; textile yarn, and strip and the like of heading No. 54.04 or 54.05, impregnated, coated, covered or sheathed with rubber or plastics, of high tenacity viscose.	
- Other artificial filament yarn	26.2	- Other yarns of artificial filament (other than sewing thread), whether or not put up for retail sale.	
- Other artificial staple yarn	26.3	- Yarn of other artificial staple fibres (other than sewing thread), whether or not put up for retail sale.	
Wool & wool blend fabric	31	Woven fabrics of wool or fine animal hair; other woven fabrics, mixed mainly or solely with wool or fine animal hair; woven pile and chenille fabrics of wool or fine animal hair and gauze of wool; and similar fabrics, impregnated, coated, covered or laminated:	KGM
- Combed wool fabric	31.1	- Woven fabrics of combed wool or fine animal hair; other woven fabrics, mixed mainly or solely with combed wool or fine animal hair; gauze of combed wool; and similar fabrics, impregnated, coated, covered or laminated.	
- Other wool fabric	31.2	- Woven fabrics of carded wool or fine animal hair; other woven fabrics, mixed mainly or solely with carded wool or fine animal hair; woven pile and chenille fabrics of wool or fine animal hair and gauze of wool, other than combed; and similar fabrics, impregnated, coated, covered or laminated.	
Cotton fabric	32	Woven fabrics of cotton; woven pile, chenille and terry towelling fabrics and gauze of cotton; denim fabrics of cotton, weighing more than 200 g/m <sup>2</sup> of such fibres; and similar fabrics, impregnated, coated, covered or laminated:	KGM
- Cotton fabric, unbleached	32.1	- Woven fabrics of cotton, unbleached; woven pile, chenille and terry towelling fabrics of cotton, unbleached and gauze of cotton.	
- Cotton fabric, finished	32.2	- Woven fabrics of cotton, finished; woven pile, chenille and terry towelling fabrics of cotton, finished; and fabrics of Category 32.1 and 32.2, impregnated, coated, covered or laminated.	
- Denim fabric	32.3	- Denim fabrics of cotton, weighing more than 200 g/m <sup>2</sup> of such fibres; and similar fabrics, impregnated, coated, covered or laminated.	
Cut corduroy fabric	33	Cut corduroy, woven, of cotton and man-made fibres.	KGM

Short Description	Category	Sub Category	Long Description	Units
Nylon fabric	34		Woven fabrics obtained from high tenacity yarn of nylon or other polyamides; other woven fabrics of nylon or other polyamide filament or staple fibres; and similar fabrics, impregnated, coated, covered or laminated.	KGM
