Insert before the last paragraph of Mr. CORSE'S (United States) statement the following:

"Mr. Corse indicated that he hoped that there would be a minimum of publicity with regard to plans for further tariff negotiations, if such negotiations were agreed to, until formal notice could be issued by the United States. He said that no publicity should be given to that part of the suggested tentative time schedule which related to domestic procedures, for example the possible date of the United States public notice."
