1961 GENERAL ROUND OF TARIFF NEGOTIATIONS

Submission of Lists of Requests

(Note by the Delegation of Denmark)

The following communication, dated 16 September 1960, has been received from the Government of Denmark:

"In view of the uncertainty as to the outcome of the re-negotiations with the European Economic Community under Article XXIV:6 of the General Agreement - an uncertainty which in view of the proposals for a common agricultural policy for EEC is particularly pronounced with regard to agricultural products - the Government of Denmark are not in a position, at this stage, to submit request lists to the European Economic Community, as provided for in Section VIII A(2) of the Rules and Procedures for the Tariff Conference commencing in Geneva on 1 September 1960.

"The Government of Denmark reserves her right, however, to present requests concerning any individual duty in the common external tariff or any duty resulting from the common agricultural policy as and when it is known to what extent it has been possible to safeguard traditional Danish export interests during the re-negotiations under Article XXIV:6."
