1964 TRADE NEGOTIATIONS

Products of Interest to Nicaragua

The Government of Nicaragua has transmitted to the Executive Secretary a list of products, which is annexed, on which it would like industrialized countries to reduce duties by 50 per cent, or more as regards tropical products, in the course of the Kennedy Round of negotiations.

In transmitting the list, the Government of Nicaragua has explained that it contains products which Nicaragua already exports and products which are of great interest to the Government of Nicaragua as part of their plan for agricultural diversification. It is part of a more complete list which will be submitted in due course. The Government of Nicaragua has added that the products enumerated are of interest not only to Nicaragua but also to the other members of the General Treaty on Central American Economic Integration (Guatemala, El Salvador, Honduras, Costa Rica) and that the list has in fact been drawn up jointly by these countries.
