PRODUCTS OF SPECIAL INTEREST TO THE EXPORTS OF LESS-DEVELOPED COUNTRIES

Communication from Brazil

The following communication has been received from the delegation of Brazil.

The Brazilian Delegation has the honour to submit the following list of products of special export interest to Brazil, other than those already specified by Committee III, and which in the view of the Brazilian Government should not be excluded from the projected linear tariff reductions of the Trade Negotiations. It should be noted that the list is not final, and the Brazilian Government reserves the right to alter it, as well as to indicate those products for which Brazil would request a reduction superior to the 50 per cent linear rate.

The Brazilian Delegation also recalls that, as stated in previous GATT meetings, the submission of this list does not represent a final decision of the Brazilian Government regarding its participation in the trade negotiations themselves. Such a decision will depend on the definitive elaboration of the guiding principles and rules for negotiations with less-developed countries.
